Village Board opposes A.C.C. development

The Antioch Village Board voted unanimously to oppose the proposed Antioch Country Club Planned Unit Development at their May 1st meeting.

The vote authorized Village Attorney Edward Jacobs to write a position paper to the Lake County Zoning Board intended to be presented at the county groups May 19th meeting.

Antioch Mayor, Ray Toft, brought the issue to a head by requesting the

board to issue a statement: "I think we owe it to the schools," Toft said.

Village Trustee, Vern Barnstable, echoed the mayor's feelings, adding that he was opposed to the proposed density of the development.

Thus far the three school districts directly involved: Grass Lake, Emmons, and the Antioch High School have issued statements of opposition, based on the unfavorable impact they feel

Con't on Page 2

The annual village clean up week will begin soon. Turn to Page 4 for special article.

June 10 for H.S. Referendum

The Antioch High School Board has pegged June 10th as the tentative date for another attempt to pass the district's Education Fund rate referendum.

The June date, while not definite is expected to get the go-ahead at the next regularly scheduled Board Meeting on May 17th.

According to District 117 officials, the terms of the rate increase would be the same as those of the last referendum. It calls for the Education Fund rate to be increased by \$.40 per \$100. of assessed valuation, from \$.92 to \$1.32. The district last was granted a rate increase in 1958.

The April 26th decision to call a referendum comes almost exactly a month after the district had lost a similar proposal. On March 25th the measure was defeated by a 3-2 margin. Prior to this defeat a similar proposal was rocked 8-1 on April 24th, 1971.

District 117 administrators were guardedly optimistic about their chances of success. They noted that they had already begun to lay the groundwork for the vote.

While the third time around may provide the charm needed for passage, the school has several large obstacles to surmount before the measure has a good chance of success.

School administrators listed the partents of school age children as the crucial group necessary for passage. The group is comprised of 1400 potentially responsive voters. However, in the last test only 24.2 percent turned out to vote.

Another obstacle to contend with is the effect other school referenda will have on the vote. To-date, there is one other referendum slated to run in June with

Rescue Squad TO INITIATE HEART SAVING PROGRAM

Antioch Rescue Squad members will soon begin training to become emergency medical technicians capable of giving immediate aid to victims and those suspected of having heart attacks.

The statewide pilot program is partially sponsored by the Antioch Lions Club and will be run in conjunction with local doctors and the Staff of Victory Memorial Hospital.

Dr. John P. Freeland, Medical sponsor and practicing internist at Victory listed the program as "an attempt to extend the assistance of specialists and emergency room personnel directly into the homes of suspected heart patients."

According to Rescue Squad Captain Jim Fields, "the program will try to cut the mortality rate of suspected heart attack victims who may be endangered because of the distance between their homes and the nearest hospital."

Rescue Squad members will

undergo a period of intensive training that will qualify them to operate specially designed mobile heart monitoring equipment.

The equipment, an electro-cardiogram (EKG) and a heart defibrillator (heart shock) unit will be installed in the Rescue Squad's ambulance, along with communications devices that will keep Rescue Squad members in direct contact with a participating local physician or the intensive care unit at the Waukegan hospital.

In the event of an emergency the squad would send the suspected victims heart waves over a frequency modulator that converts electrical impulses to sound. At the hospital a demodulator would reverse the process and "examine" the patient's heart waves. If a doctor should prescribe it, the Rescue Squad would be qualified to administer heart shock treatment

to stabilize a "fluttering" heart.

According to Rescue Squad member, Dan Dugenske, "we aren't physicians, but in many cases you can't move a victim and something may have to be done before a doctor could arrive."

Dr. Freeland listed statistics that show that 20 percent of all coronary deaths occur during the time before a victim reaches a hospital. "This program could go a long way in combatting these deaths," he said.

Squad members said this was not a "flash in the pan" operation. They have been engaged in research and development work for nearly a year and a half.

"This is another phase of upgrading designed to keep the Antioch Rescue Squad up to date with new rescue concepts," said Dugenske.

Training is scheduled to begin shortly and rescue squad members hope to have the program operational by July.

BOARD OPPOSES DEVELOPMENT

Con't from Page 1

the development would have on their student enrollment. According to statistics, the development would generate 564 school children over a 5 to 7 year period.

In addition to the schools directly involved, the Antioch Upper Grade School and St. Peters School have also come

out in opposition to the project.

The Village Board's vote came before a remarkably small crowd at the Main Street Hall. In contrast, the building had previously been packed when discussion of the project was thought to be on the board's agenda.

COTILLION A SUCCESS

Sunday night was the night of - Nights for the Antioch and area people who attended the 7th Annual Antioch Mental Health Cotillion. The weather was nice with the view from the top of the Arlington Park Towers fantastic. The social hour was congenial and the food great. The ladies were lovely in their gowns - with chiffon making its entrance.

Following dinner, President, Mrs. Ray (Pat) Lorenz introduced this years chairman, Mrs. Dan (Angie) Maras and

co-chairman, Mrs. Ted (Caroline) Costoff, who in turn introduced their committee chairmen. Special honor for the night was given to Mrs. Edmund (Louise) Vos who started the Cotillions and has worked diligently thru the years on the fund raising projects.

Entertainment for the evening was a lovely Hawaiian dancer named Joanne and then music for dancing was by The Scotch Lads.

MEMBER OF ILLINOIS PRESS ASSOCIATION AND NATIONAL NEWSPAPER ASSOCIATION

Our Congressman

Congressman Robert McClory announced today that legislation approved last week by the House of Representatives Ways and Means Committee would provide Illinois and its communities with \$301,700,000 this year.

According to provisions of the State and Local Government Fiscal Assistance Act of 1972, Illinois' state government would receive \$105,100,000; while \$196,600,000 would go directly to local governments within the state.

Congressman McClory explained that the committee's version of the bill - which is essentially the first stage of the

revenue - sharing measure proposed by President Nixon - authorizes a five - year program which appropriates a total of \$5.3 billion to state and local governments during its first full year. During that year, \$1.8 billion would be allocated to state governments on the basis of tax effort, and \$3.5 billion would go to local units on the basis of need - as determined by population, urbanized population, and relative per capita income.

Congressman McClory announced the following allocations to communities within the new 13th District:

Lake County Gov.	\$1,904,995
Antioch	30,189
Fox Lake	45,205
Grayslake	45,617
Gurnee	26,605
Lake Bluff	39,956
Lake Forest	120,213
Lindenhurst	32,451
Mundelein	159,786
North Chicago	565,245
Park City	27,503
Round Lake Beach	60,761
Round Lake Park	33,626
Wauconda	55,631
Waukegan	643,727
Winthrop Harb.	49,136
Zion	188,715

NIXON AND VIET NAM

Since March 30th, a totally different war has been raging in South Vietnam. Up until that time, the South Vietnamese had experienced intensive guerrilla warfare. However, on March 30th, South Vietnam was invaded on three fronts by North Vietnamese regular forces.

These invasions committed virtually all of the North Vietnamese forces, and included hundreds of heavy Russian-built tanks and other sophisticated equipment. The enemy attacks were aimed at the principal cities of South Vietnam and targeted mainly on the civilian population.

Except for American air power and limited naval involvement, only South Vietnamese forces have been involved in defending their nation from this major attack.

On Sunday, April 9th, 58 enemy tanks were reported to have been destroyed as the South Vietnamese turned back a threatened invasion of the ancient South Vietnamese capital of Hue. In another encounter, 40 tanks were reported to have been destroyed in the attack on the city of An Loc.

The tragedy of this escalation of the war by North Vietnam is that it has reversed the course of winding down a war - a program to restore peace - in which President Nixon has provided the leadership.

In order to slow down the invasion, it became necessary to reduce the enemy's sources of fuel and other supplies - without which the large-scale invasion could not continue.

The President's action has (a) provided protection for the 70,000 Americans who remain in Vietnam (only about 5,000 of whom are in a potential combat role); (b) permitted the continued scheduled

withdrawal of our remaining combat forces and other military elements and (c) encouraged the continued Vietnamization of the conflict.

While many have deplored the resumption of limited bombing of the Ho Chi Minh Trail and supply sources in the North, the principal condemnation should be directed at the North Vietnamese who have escalated the conflict on the one hand and avoided meaningful negotiations in Paris on the other.

It cannot be denied that the protection of our American forces has been ably assumed by the regular South Vietnamese army. The enemy has been repulsed near the DMZ, is reported to be stalled in the Central Highlands, and has been held back from the area of Saigon. Indeed, it is reported that 80 percent of the present initiatives are by the South Vietnamese forces in driving back the enemy.

While the outcome of this new turn in events is uncertain at this time, it appears probable that the next few weeks will determine the final outcome of the Vietnam war. One conclusion which is inescapable is this: The forces of Hanoi have committed virtually their entire military strength in an all-out effort to invade and occupy South Vietnam. If this effort should succeed, the lives of many of the Americans who are still in South Vietnam could be lost.

A large number of Republican and Democratic Members of the House have sponsored a resolution condemning the all-out North Vietnamese attack. The general speculation in Washington appears to be that North Vietnam has taken a desperate gamble.

THE ANTIOCH NEWS

Page 3

AN OPEN LETTER TO THE ANTIOCH NEWS

Mr. Jack Davis
Antioch, Ill.

Dear Mr. Davis,

It was with surprise and a feeling of sadness that we read of your resignation as Chief of the Antioch Police Department.

It seems that it is the present custom to criticize "Law Enforcement Officers."

We want you to know that as far as we are concerned you have served this community in a very efficient and orderly manner and deserve our commendation.

We wish you happiness and success in your future endeavors.

Sincerely yours,
Helen M. Olsen

and
Edwin W. Olsen

MY THANKS

Losing an election is not easy - particularly when you expected to win - but I have to much to be thankful for.

For 18 years I have served the people of Illinois, first as a state representative, then state senator, and now as Lieutenant Governor. I am grateful to the people of Illinois for that opportunity. These have been exciting years, and years in which I have tried to repay the citizens with service to what I have believed to be their interest.

History can give a much more balanced judgement of that service than I can. "Aren't you bitter about losing by 40,000 votes after all you have done for the people of the state? one woman wrote and asked, and others have said the same thing in other ways.

There is unhappiness in losing, obviously. When you read things said about you which are not true, but which many people must have believed, obviously it hurts some.

But bitterness can do no one any good.

Much remains to be done, if we are to move on the problems in our society. Tears and bitterness and rehashing of what has happened in the past cannot help to build a better future. And that's what we must be doing.

The day after the primary I included these words in my concession statement:

"It is easy in defeat to blame others; that is rarely accurate. And after a strenuous campaign, it is not easy to lose.

"I am sorry that I have let my supporters down.

"I regret the inadequacies of my campaign, inadequacies which others may see more clearly than I do. But I do not regret telling people the truth. I hope I never become so eager for any prize that I corrupt the truth, as vile a corruption as any other.

"To those who feel that all is lost, let me remind these good friends that what you supported was not only a man, but a cause. The cause of decency in government, of dignity for all men, needs your continued support, as it will have mine."

Paul Simon

EDITORIAL

Hats Off To A. M. H. A.

The members of the Antioch Mental Health Association deserve a special word of commendation following their latest campaign to raise funds for the mentally handicapped.

This group is a prime example of public spirited involvement in a cause that is often forgotten: the plight of the child, who until quite recently was the object of scorn and harassment.

The officers of this group are: Mrs. Raymond Lorenz, President; Mrs. C.F. Spiering, Vice President; Mrs. Edna Hines, Secretary; Mrs. Norman Jedeke, Treasurer; Mrs. George Hahn, Publicity; Mrs. Edmund Vos, Chairman, Thrift Shop; Dance Committee - Mrs. Dan Maras, Chairman; Mrs. Ted Costoff, Co-Chairman; Mrs. Peter Houlihan, Publicity; Mrs. Gus Costoff & Mrs. Ray Lorenz - Ticket Co-Chairmen; Mrs. Al Bucar, Tickets; Mrs. Gerald Risch, Tickets; Mrs. Sherman St. Pierre, Tickets; and Mrs. Robert Sven, Tickets.

These ladies gave of themselves without regard to time or personal sacrifice and have again raised substantial funds for this very worthy charity. We of the Antioch News would like to publicly offer our thanks and express our gratitude for a job well done.

Letters to the Editor on any current issues are welcome. Only letters with names can be considered for this column. Signatures will be withheld on request. Letters cannot be returned and are subject to minor editing.

RAP FORUM SETS UP COMMITTEES

The Rap Forum held their meeting Monday evening in the Commons. Many interested parents and students were in attendance.

The main topic for discussion was pertaining to the up-coming referendum. It's not official yet, but the board is supposed to act on this at their next Board Meeting, May 17th.

Glen Amunsen, presided over the meeting. He read off a list of thirteen questions students had about the last referendum, and the answers were given by the administration.

The "Student Referendum Coordinating Board" has been set up with the following chairmen:

1. Industry and Business Contacts chairman - Sue Walsh.

2. Student Involvement chairman - Terry Olson.

3. Student Poster Preparation chairman - Rita Haley.

4. Home Relations chairman - Sandy Stewart.

5. Student-Teacher-Parent Committee chairman - John Thain.

These five committees will be added to the four previous ones; Telephone, Publicity, Transportation and Speakers.

It is the hoped for result that the PARENTS will become more involved and also to volunteer to help serve on these various committees.

If anyone is interested in finding out more about the referendum or would like to work with one of the committees you may call Mr. Kurek at the Antioch High School, 395-1421.

Let's Help Clean Up Antioch

While sitting over coffee at a local restaurant or during the gossip breaks over the backyard fence, local residents often bring up the sad condition of some of the township's back roads.

These roads, they say, are eyesores littered with the refuse and trash that some ignorant citizens throw by the wayside. A short inspection trip can uncover anything and everything. A stove, beginning to show rust through its white porcelain exterior rots along the highway. Bottles, cans, bags and the multitude of castoffs thrown from a passing car leave an ugly reminder of mans intervention in a virgin land.

But the outlying areas are not the only ones affected. Within sight of some of Antioch's newest buildings are

heaps of garbage and piles of discarded trash that would turn the stomach of a packrat.

In a country that has currently found the ecology gig fashionable, there still exists the problem of even small cities, such as Antioch, having an uncontrolled dump well within its village limits. Even as people echo the latest findings of governmental agencies on pollution, they secretly plot to rid themselves of unwanted old papers or leaves by dumping them at a convenient spot during a midnight sortie.

The village will soon run a "clean-up" week and while the sickness is treated, the problem still exists and is only temporarily affected. Clean up week can only do so much. While the streets will be rid of their mountainous heaps of

rubbish, it only takes a strong wind to circulate the other papers and miscellaneous junk that lies undetected.

The problem of pollution doesn't exist solely on a massive national scale, but is tragically brought home by the recognition of just how slovenly we, ourselves are.

Pollution of rivers and the air is probably too immense to handle on a personal level, but the problem of trash and garbage isn't. If everyone committed themselves to keep the Antioch environment clean by regulating their own habits, the problem would be well along toward a solution.

If, as many people have indicated, we want to maintain our small town image we must dedicate ourselves to keeping it clean. Only you can do it.

Village Employees get Pay Raise

Antioch Village employees will receive a 5 percent pay raise, effective May 1st. This is the decision the Village Board came to at their May 1st meeting.

According to trustee George Bartlett, approximately 30 employees will be the recipients of the salary hikes. The 30 are predominately members of the Village's Public Works and Police Department.

The salary increases, which will amount to \$13,101.25, were set up by the Village Board's salary, audit and finance committee and reflect a cost of living allowance.

In other business the board:

- 1) Contracted to provide dispatching service to the Lake Villa Police Department. Price for the service is \$3,864.00
- 2) Hired the Rockford firm of Pollard and Wheeler to conduct the village audit.
- 3) Authorized the appropriation of \$1,195.00 to the Street and Water Department for equipment destined for the new Village filtration plant.
- 4) Issued building permits to Harold Dado and Robert Bemis respectively, for 2 homes and a 9 unit apartment building.
- 5) Approved an ordinance to allow the North Shore Gas Company to service gas facilities.

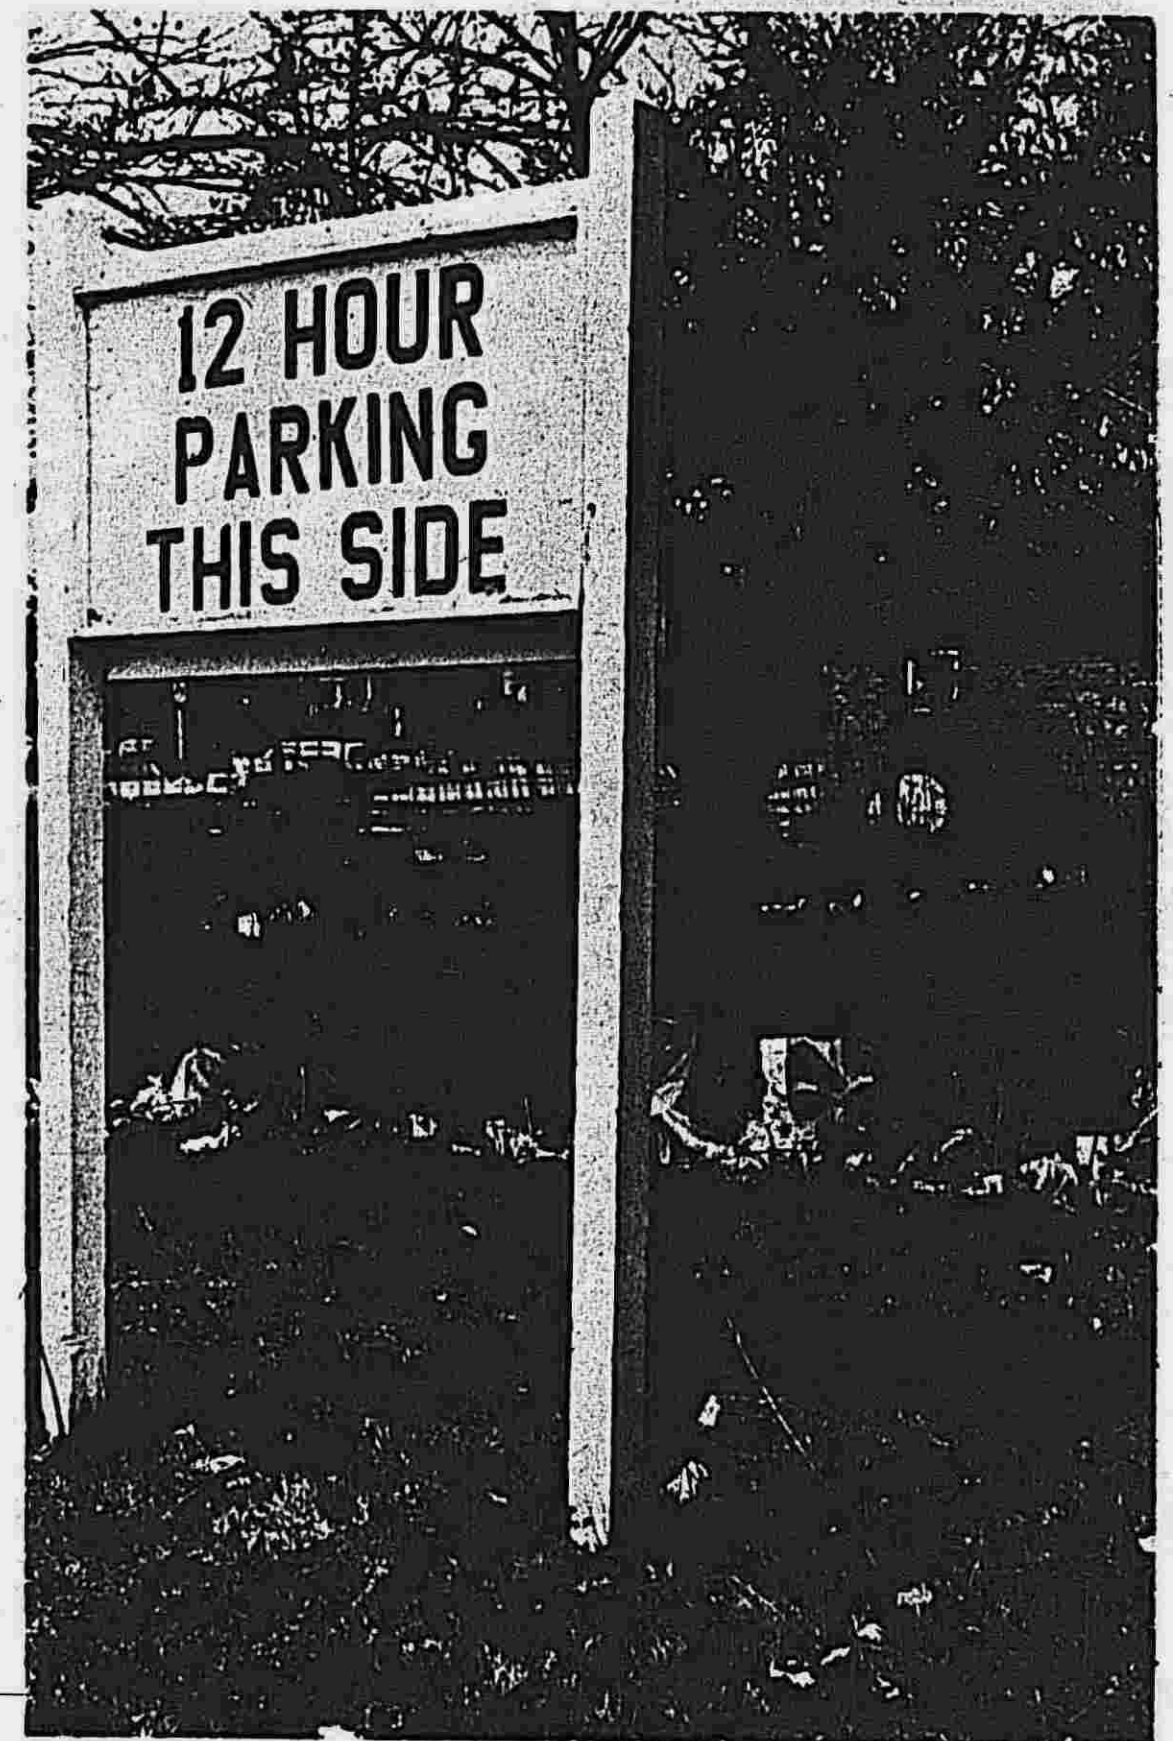

JUNE 10 - for
H S REFERENDUM

Con't from Page 1

another possible. The Grass Lake School has listed June 3rd, the Saturday prior to the High School vote, for a building addition and Education Fund rate referendum.

The Antioch Upper Grade School has yet to receive the go-ahead for a vote to solve their economic crisis, but the current belief is that the District 34 Board will take a "wait and see" attitude.

Since the March 25th defeat the High School Board has made over \$150,000 in budget cuts and insiders rate the school's chances as 50-50 for a favorable vote.

This includes a complete studio sitting, with complete set of pre-views from which you may select your glossy print.

Best wishes in your future together.

by: Gigi Spittle

Did anyone miss my column last week? In this day and age, one of the most talked about subjects is Womens Lib. I have always felt that women were equal to men in all ways, except strength. This week I asked residents of Antioch:

WHAT DO YOU THINK OF WOMENS LIB?

MRS. VICTOR MIREK states, "I think that there is a big area in this world where women are discriminated against and there is a need to change this. I really am for womens lib myself. Being I am a woman I am slightly prejudiced. In America where you can speak out these things are brought out in the open, but in many areas of the world women can't speak out. I think it's wonderful to be a woman, feminine, to have a home and raise children, but she should also be free to make a choice. In the area of careers women are still discriminated against a great deal. I see it all the time. I know this is not something that is just talked about. A lot of husbands feel that their woman has a great deal of freedom which they really don't have. The husband is not aware of the ways in which his wife wants to express herself. Women aren't born just to have children and keep house. My husband's always been a good provider, but there are a lot of areas that he does not realize that he has had more freedom and choices than I have."

MRS. ERNEST OPTZ said, "It's got its pros and cons. I would say a woman that is supporting herself should make equal to what a man is making. Before it was always 'Well, you are a woman, you don't make as much as a man.' I don't like the idea of girls paying for dates and asking men out. I am not for it unless I had to support myself."

MRS. EUGENE ZANNINI states, "I don't like this 'way out type' womens lib. I think women that are equally able in jobs should be paid for it. But as far as equality of 100%, I think women should be women and do a woman's job at home. Those that are career women should be able to compete with men. But women going to the moon and that sort of thing, I think men are better qualified for the job. I don't like all this fuss for independence."

MRS. JOHN DORSEY answered, "I dislike it very much. I just don't like the things that they do. I like to pamper my husband and take care of him. I just don't think that women should try to take a man's place, that's all. Womens Lib are publicity hunters."

Now's the time to get out your grills that were in winter storage and clean them all up for a delicious barbecue next weekend!

Peace till next week.

Gigi

Did anyone miss my column last week? In this day and age, one of the most talked about subjects is Womens Lib. I have always felt that women were equal to men in all ways, except strength. This week I asked residents of Antioch:

WHAT DO YOU THINK OF WOMENS LIB?

MRS. VICTOR MIREK states, "I think that there is a big area in this world where women are discriminated against and there is a need to change this. I really am for womens lib myself. Being I am a woman I am slightly prejudiced. In America where you can speak out these things are brought out in the open, but in many areas of the world women can't speak out. I think it's wonderful to be a woman, feminine, to have a home and raise children, but she should also be free to make a choice. In the area of careers women are still discriminated against a great deal. I see it all the time. I know this is not something that is just talked about. A lot of husbands feel that their woman has a great deal of freedom which they really don't have. The husband is not aware of the ways in which his wife wants to express herself. Women aren't born just to have children and keep house. My husband's always been a good provider, but there are a lot of areas that he does not realize that he has had more freedom and choices than I have."

MRS. ERNEST OPTZ said, "It's got its pros and cons. I would say a woman that is supporting herself should make equal to what a man is making. Before it was always 'Well, you are a woman, you don't make as much as a man.' I don't like the idea of girls paying for dates and asking men out. I am not for it unless I had to support myself."

MRS. EUGENE ZANNINI states, "I don't like this 'way out type' womens lib. I think women that are equally able in jobs should be paid for it. But as far as equality of 100%, I think women should be women and do a woman's job at home. Those that are career women should be able to compete with men. But women going to the moon and that sort of thing, I think men are better qualified for the job. I don't like all this fuss for independence."

MRS. JOHN DORSEY answered, "I dislike it very much. I just don't like the things that they do. I like to pamper my husband and take care of him. I just don't think that women should try to take a man's place, that's all. Womens Lib are publicity hunters."

Now's the time to get out your grills that were in winter storage and clean them all up for a delicious barbecue next weekend!

Peace till next week.

Gigi

ROBBERY AT PITTMAN'S AGAIN

Pittman Motors of Antioch was again the victim of a robbery on April 27th, when thieves removed batteries from under the hoods of three new cars and cut the cables on another.

Police officials noted a search of the area turned up no new leads. They said an over night rain had eliminated any chances for fingerprints.

Batteries stolen were valued at \$35 each.

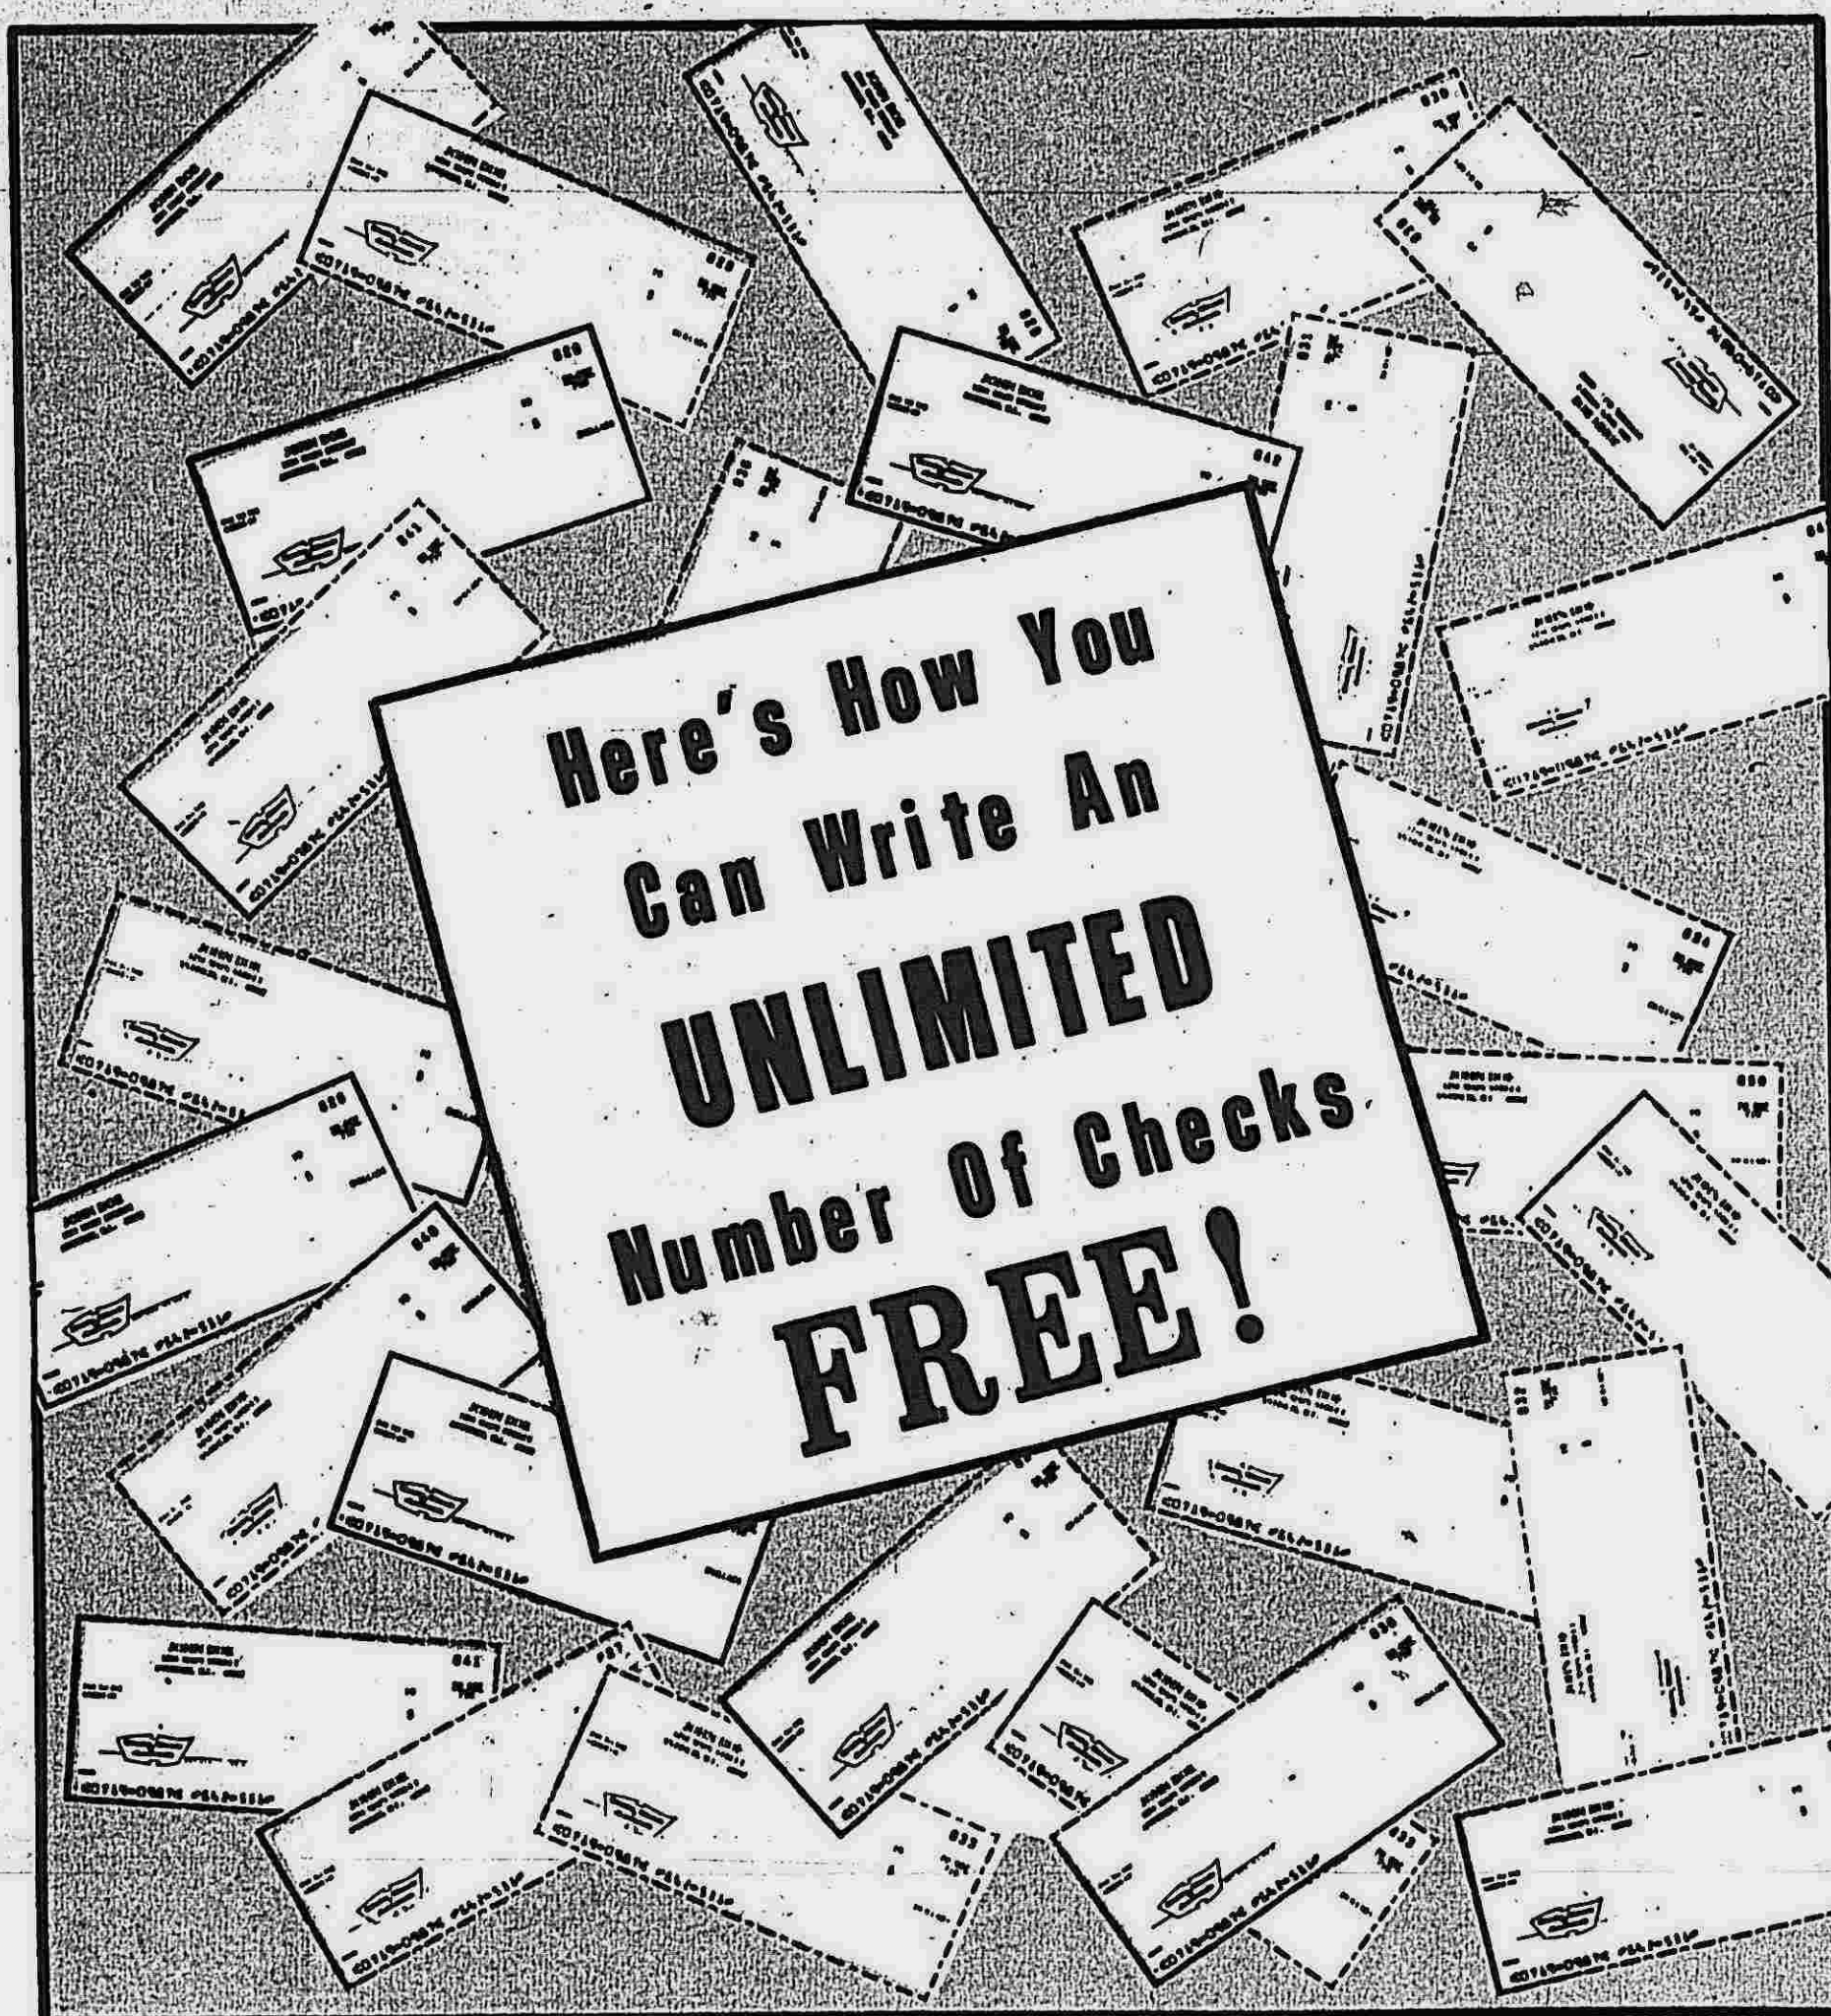

RABBIT REDUX by John Updike. Attempting to cling to the ideals and world of his childhood, an aging conservative finds life increasingly difficult to understand during the turbulent sixties.

MAKE YOUR OWN PROFESSIONAL MOVIES, by Nancy Goodwin and James N. Manilla. Presents a practical reference work for producing and directing home movies, offering suggestion on the tricks and techniques of cinematography.

ENTERTAINING YOUR CHILD by Lucille E. Hein. Contains simple activities to entertain and educate young children in the wonders of nature and science, and includes arts and crafts projects to encourage creativity.

THE BLUE MESSIAH by James David Horan. Frank Howell and Joe Gunnar, two ghetto youths, dream of the day when they will control America's police.

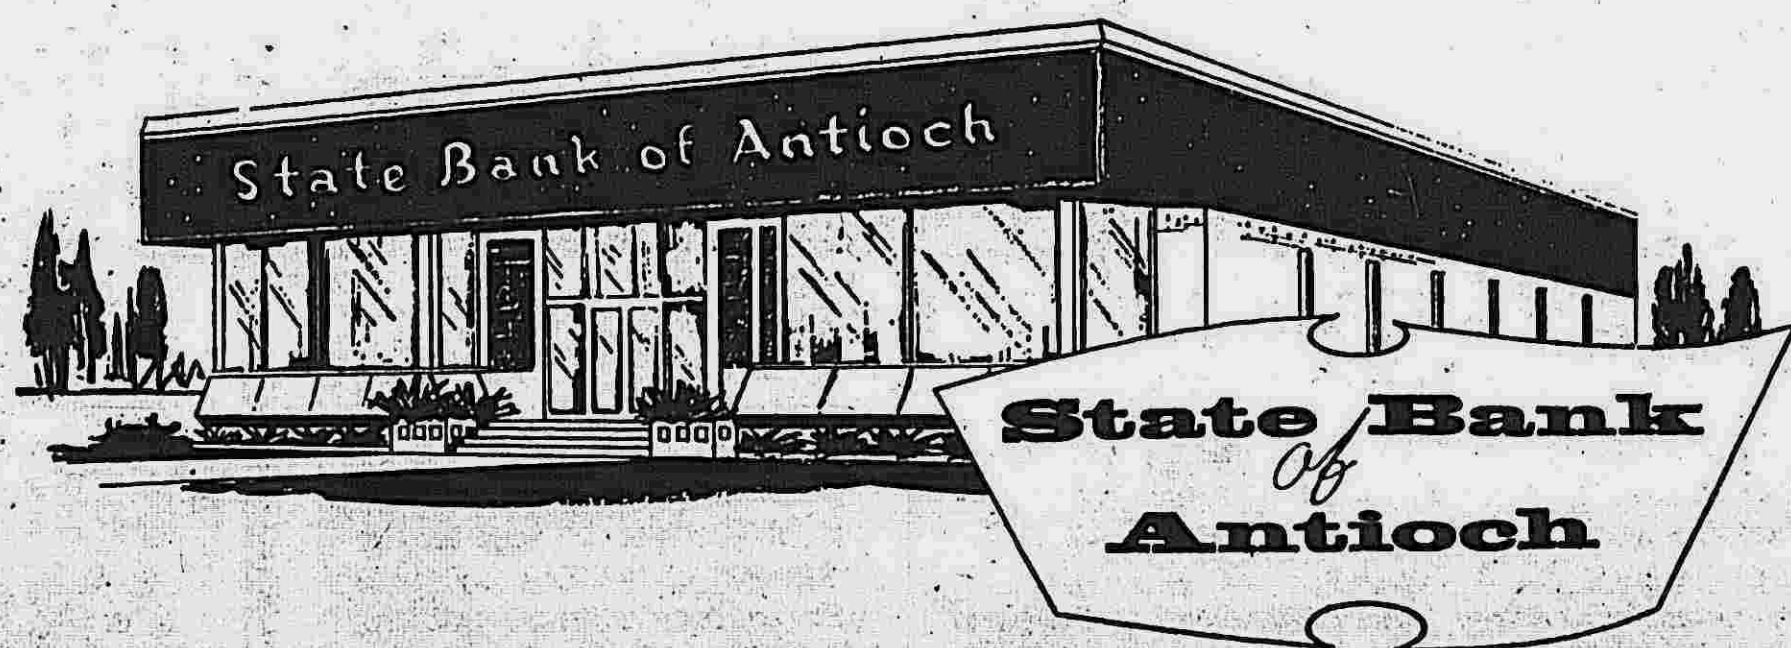

Library hours are from Noon to 9:00 P.M. Saturday 10:00 A.M. to 5:00 P.M. Take time to rest and relax and enjoy a good book or periodical in the library lounge.

Here's an opportunity to save yourself many dollars each year and enjoy all the convenience and safety of a STATE BANK OF ANTIOCH checking account.

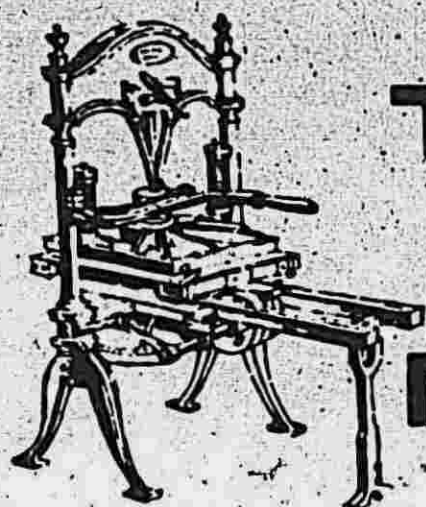

Write all the checks you want... make all the deposits you want... There are no service charges at all for a regular personal checking account if you keep a minimum balance of \$150.00 during the month.

If your balance falls below the \$150.00 minimum the service charge is \$1.50 plus 5 cents per check.

The Time Machine

70 YEARS AGO, MAY 1, 1902

The Tyceum Players presenting scenes and acts from Shakespearian plays and bright, modern comedians will appear at the opera house, Antioch, on Friday night, May 2. The prices of admission will be 15 and 25 cents, reserved seats 10 cents extra.

The Wisconsin Condensed Milk Company will pay \$1.20 per hundred for May milk, the Borden Co. at Genoa junction will pay 90 cents for May milk.

The town of Rollins, with the exception of the post office, was entirely wiped out by the heavy wind storm which prevailed on Saturday.

50 YEARS AGO, MAY 4, 1922

Alec Hughes won the slow race and Elmer Hunter won the economy race at the Ford Day celebration last weekend.

Ground is being broken for the erection of the new Roschlein meat market.

School note - The 5th and 6th grades spent part of the afternoon of April 27, telling about Ulyses S. Grant. Some of their information was obtained from Antioch veterans of the Civil War.

35 YEARS AGO, MAY 6, 1937

Two farmers were honored Thursday by the Antioch Chapter of Future Farmers of America for meritorious work in the field of agriculture. They were Mr. D. H. Hughes, Sr. and Mr. Niels Nielsen.

Mary Maplethorpe, R. D. Williams, Marian Rigby, and Dr. L. J. Zimmerman were re-elected to their offices on the Library Board at its regular May meeting, Tuesday.

A simple but pretty wedding ceremony took place in Christ Episcopal Church, Waukegan, Sunday when Ruth Eleanor Nixon became the bride of Clifford Clarence Carlson.

25 YEARS AGO, MAY 1, 1947

Antioch Township High School's Track Team marked up the greatest athletic honors for the school in many years when it won the class B division of the Palatine relays Saturday in which 13 schools competed.

The strike of telephone operators is now in its fourth week with nothing definite as a basis of settlement forthcoming.

Don Bauer, son of Mr. and Mrs. Louis Bauer, took \$500 in prize money at the Lake Forest singles bowling tourney last week.

10 YEARS AGO, MAY 3, 1962

William Seeman, Science Instructor at the Antioch Township High School is the newly elected chairman of the North Suburban District Junior Academy of Science.

Marcia Cunningham and Roger Strattan, both of Antioch, were married on April 14. Mr. and Mrs. Strattan are making their home in Zion.

A MOTHER'S MEMORIES

...her greatest joys!

Mothers are the nicest people... so warm and sweet and giving! So busy being mothers there's little time to enjoy it until children are grown and gone. That's when mothers really appreciate fine professional portraits of children and grandchildren.

Children. Honor your Mother this May with portraits of her own, dearest posterity. It's quite the nicest kind of giving.

Time to remember with portraits

Remember When?

Remember when? We don't, but maybe some of you do. It is Antioch or the people from Antioch. For the next few weeks we will publish a photo from a time long past in hopes for some it might spark a fond memory.

If you should happen to know when and where, let us know! We are sure many would be interested. Also if any of you have a very interesting "remember when" photo of Antioch and would like to share a memory or two with others, we will try to print it for you.

Today's "Remember When" picture is by the courtesy of the Haley Brothers.

Gentlemen:

I was extremely delighted in the article (70 Years Ago - April 17, 1902) appearing in your April 19, 1972 issue, which was brought to my attention by Mrs. Arthur Laursen, while visiting my cousins, Mr. and Mrs. Emil Risch, this week.

Thank you for "The Time Machine".

Eunice Bell Christensen

the son of Edward and Betty Lingo of Lake Zurich. James, who suffers from an allergy problem was recently presented with a Medic Alert emblem.

The program motto for the 1972 Medic Alert program is "Help People Help Themselves Save Their Lives."

The Lake County Life Underwriters have recently announced the beginning of one of their public service endeavors. Labeled the Medic Alert program, this project has as its aim the education and encouragement of people with hidden medical problems to wear a Medic Alert emblem. The emblem, can be worn on the wrist or neck and warns emergency personnel of the wearer's particular problem.

The Medic Alert emblem, which is recognized the world over, has engraved on it's back the medical problem and file number of the wearer, plus the telephone number of the special Medic Alert central file. Doctors, police or anyone giving emergency first aid can get vital information immediately by a collect call to the organization's 24 hour answering service.

"Actually, it's a two-part program," said Dick Witt local chairman of the Life Underwriter's Medic Alert program. "People with a hidden illness should protect themselves by wearing it, but the organizations directly involved, such as the police, fire and rescue squad must make sure they don't waste time by not recognizing the emblem and the information it can give."

The Medic Alert

Pictured above is 1972 Medic Alert Child, James Lingo, of Lake Zurich. The bracelet James is holding tells of his hidden allergy problem and can aid medical personnel in treating him.

Along the Way with *Annie Mae*

Ah - Spring! the grass is greening and the trees are budding - and how many of you turned the clocks back instead of "springing up" one hour?

Lots went on this weekend with the BABE WAGNER DAY at the Antioch Country Club and the MENTAL HEALTH COTILLION at Arlington Park Towers. Gave many people a chance to dress up.

Good luck to all the kids on the Court for the upcoming Prom. They are: Joyce Pachay, Marsha Kroeplin, Sandi Stewart, Taffy Englehardt, Carol Wells, Mike Harvey, Shayne Schroeder, Frank Nevitt, Dean Vendl and Gary Soland.

Ray Gardner, Sally Whitney, Ed Dube, and Dorothy and Jack McCabe all from Continental Real Estate went to Springfield last

Tuesday to support the "36-36" Bill. The Bill was passed and everyone came home well satisfied.

Mr. and Mrs. Henry Harkensee of Wedgewood Subdivision just returned from a vacation in the Hawaiian Islands where they celebrated their 50th wedding anniversary. Our congratulations to you both.

A couple belated anniversaries go to BETTY & ART MEYER who celebrated in Rockford last week. - Also to JOAN AND GEORGE VISTAIN who celebrated 23 years on April 25.

Our condolences to MRS GEORGE SCHMIDT and FAMILY on the loss of their husband and father. - Also to MRS JOHN ENGFORS and family on the loss of their husband and father. Words can't say enough.

Hear SHARON WATSON is trying to take it off twice as fast. Along with going to Weight Watchers, she has taken up bicycling. Maybe its time we ALL get our bikes out after the sluggish winter.

Happy birthdays go to SUZI FRASH who will be 4 on May 6. To SHIRLEY KASIK who celebrated on May 2 and a hug and kiss to SCOTTY ANDERSON who celebrates his birthday on May 3.

SUZI FRASH will have to celebrate her birthday in quarantine - HER MOTHER has the chickenpox!!!

Welcome back to MR & MRS EARL PITTMAN who just returned home after spending 6 months in Riviera Beach, Florida

May 13 is the day for the Grand Opening of BLARNEY ISLAND under the new ownership of the HALEY BROTHERS.

Remember - Little League and Babe Ruth tryouts this Saturday.

See ya when the Sun Shines -

APPARENT SHOPLIFTER CAUGHT

Antioch police officers apprehended an apparent shoplifter on Wednesday, April 26th, when Andrew Londos of Oak Brook was detained after reportedly leaving the Antioch A-Mart without paying for a bottle of liquor valued at \$6.29.

According to police reports,

Londos bolted from the site after store officials questioned his activities. He was later apprehended between two nearby buildings by trooper Chuck Larson.

He was released after posting bond and had his court date set for May 31st, at 1:30 P.M. in Fox Lake.

Lake County Receives Grant For County Fair

Richard B. Ogilvie has announced that record grants totaling \$5,232,800 have been distributed by the county fairs division of the Illinois Department of Agriculture.

Lake County received a total of \$27,093.35, of which \$14,207.85 was distributed for county fair premiums, \$7,885.50 for 4-H show premiums and \$5,000 for rehabilitation of county

fairgrounds.

Sharon Marsh, superintendent of the division of county fairs, said that all grant-in-aid programs are funded through a tax on parimutuel betting at race tracks in metropolitan areas, not through a tax on the people of the state.

Mrs. Marsh also said the 1972 dates for the Lake County Fair in Grayslake will be July 26-30.

Newcomers To Hold Bake Sale

The Welcome Wagon Newcomers Club is holding a

Bake Sale May 6th, starting at 9:00 a.m. at the Antioch State Bank lobby. All proceeds of this sale will be donated to the Antioch Rescue Squad.

Plans are being made for a Candle Light Installation of Officers banquet May 20th, at The Arbor on Bluff Lake. This will be for members and their husbands or any newcomers that wish to join the group and have their dues paid before May 20th.

Meetings are held at the Methodist Church at 8:00 p.m. on the first Wednesday evening of the month. For additional information phone 395-3063.

ENGAGED

Mr. and Mrs. Paul Mayer of Mundelein are happy to announce the engagement of their daughter, Judee, to Mr. David W. Endean of Antioch, Illinois.

Miss Mayer is a junior at Loyola in Chicago, majoring in business education.

David, the son of Mr. and Mrs. Richard Endean of Antioch, is a student at DeVry Institute in Chicago, majoring in Electrical Engineering Technology.

An August 12th wedding is being planned.

50TH ANNIVERSARY OPEN HOUSE

The children of Mr. and Mrs. Charles Tiffany of Waukegan will host an Open House in honor of their parents' 50th Wedding Anniversary, on Saturday, May 6th, from 3:00 to 6:00. It will be held in Memorial Hall of Christ Episcopal Church at 410 Grand Avenue, Waukegan. They hope that their parents' many Antioch friends will join them on this occasion. The favor of no gifts is requested.

Altar & Rosary Society Changes Meeting Night

Due to other parish "activities", the St. Peter's Altar & Rosary Society will now meet on the second Tuesday of the month.

The next meeting will be held Tuesday, May 9th at 8:00 p.m. in the Family Room. The program will be Interior Decorating by Porters of Racine Wisconsin.

Officers will be elected and a surprise dessert has been promised.

The Program chairman is Helen Zelen and refreshment chairman is Rose Robinson.

Rosary and benediction will be held before the meeting at 7:30 p.m. in the Church.

Kimberly Lock 3rd In Baton Contest

Kimberly Lock, daughter of Mr. and Mrs. Larry Overby of Antioch, started twirling the baton in September of 1971. She has since entered competition and placed 3rd in the Novice Class Age 9-10 of the Marilyn Majorettes Open Spring Contest (Class "A" Contest Sanctioned by the National Baton Twirling Association) on Sunday, April 23rd in Sycamore, Illinois.

Kim also participated in the Precisionaires 9th Annual Spring Open Twirling Festival (Class "A" Contest - Sanctioned by N.B.T.A.) on Saturday, April 29th, in Watertown, Wisconsin where she placed 4th in the Novice Age 10.

New Deductions

On April 25th Mr. and Mrs. William Kohl of Spring Grove welcomed their fourth child, Brooke Dianne. The young lady weighed 9lbs. 3 1/2oz. and was 21 1/2 inches long.

Maternal grandparents are Mr. and Mrs. Clarence Jarves of Tacoma, Washington, formerly of Antioch, and paternal grandparents are Mr. and Mrs. Leonard Kohl of Antioch.

A little pink bundle arrived on April 23, 1972 to Mr. and Mrs. William Eckert of Antioch. Janel Lynn, their first baby, weighed 7lbs. 11oz. and was 21 inches long.

Maternal grandparents are Mr. and Mrs. Arthur Wegner of Antioch and paternal grandparents are Mr. and Mrs. Richard Eckert of Antioch.

Joseph Carl, the second child of Mr. and Mrs. Charles Jenkins of Antioch, was born on April 27, 1972. Joe tipped the scales at 7lbs. 3oz. and was 20 1/2 inches long.

Maternal grandparents are Mr. and Mrs. Carl Lundsford of Deep Lake and paternal grandparents are Mr. and Mrs. Norman Jenkins of Antioch.

**DRAWING DRAPERY...**

Drapery is the term which artists give all kinds of cloth, whether it is the clothing on a human figure or the cloth draped around a still life. To understand the mechanics of drapery, place a sizable piece of white cloth on the table and arrange it in interesting and varied folds. You will notice the importance of lights and shadows which will define the contours. A striped cloth will enhance the effect of the directional movement of the cloth as in sketch A.

Different types of materials produce differences in shading in the folds, for example: silk has crisp, sharp edges around highlights, whereas wool has soft, fuzzy and gradual changes from the shadows to highlights. Practice drawing and painting all kinds of cloths and crumpled paper in this manner. Make studies from photographs of the clothed figure and then work from live models. The drapery at all times suggests the form of the body and explains the direction of the various parts.

SKETCH B

Study paintings of the old masters. The court artists of the 18th and 19th centuries were especially successful in showing the differences in brocades, silks, velvets and lace. In their portraits of the nobility. And many earlier artists like Michaelangelo and Leonardo deVinci made numerous sketches in their notebooks of figures draped in various ways before doing the final paintings. The examples above were taken from study drawings by Antoine Watteau, Sketch A, and Tintoretto, Sketch B.

Happy drawing.

COME ONE, COME ALL TO THE GRASS LAKE SCHOOL ART FAIR! It will be held on May 17th at 7:30 P.M., at the P.T.A. meeting in Grass Lake School. All students are invited to contribute an art item. This is just a little advance notice, boys and girls! Let's get to work on some nice art project! Mrs. Dietrick Klemle, general chairman, welcomes the public to this art fair.

Mr. and Mrs. Wayne Jones, Mrs. Ida Wysoglad and Mrs. Earl Horton, all members of the Lakeside Rebekah Lodge No. 82 of Antioch, attended the April 28th meeting of the Waukegan Rebekah Lodge, held in the new O.O.F. Hall in Waukegan. An impressive initiation of a new member into the Libertyville Lodge took place. The Antioch, Crystal Lake, Libertyville and Waukegan Rebekah Lodges were well represented by a large group of members.

Grandmothers, mothers and daughters galore (245 in all) enjoyed a delicious dinner at the Mother and Daughter Banquet, held at the Antioch Evangelical Free Church, April 28th. Adding to their delight was the excellent table service

provided by twenty men from the church, who were all jauntily attired in colorful straw skimmers. The tables were beautifully decorated with a tableau, depicting a young girl entering the open portals of a church, with deep rose, blue and violet stained glass side windows, on each side. This same scene, life-size, was portrayed on the wall. Lovely flowers also graced the tables. The program was both entertaining and inspirational. The AWANA girls participated in a number of clever and laugh provoking skits. Mrs. Dietrick Klemle as Mistress of Ceremonies, presented potted plants and appropriate gifts to the mother who came the greatest distance; the mother who lost the most weight (gift - box of chocolates glued to the box!) the mother who had had the most operations, etc. Miss Michelle Ord of Zion played several selections on the clarinet melodiously and with a clear clarity of tone. Highlight of the evening was the "Story of Ruth", with Mrs. Billie Keiser of Chicago in biblical dress, poignantly relating this story of faith with deep religious inspiration.

MILLBURN CHURCH DINNER

A roast beef cafeteria dinner will be served by Millburn Ladies Aid of the Millburn Congregational Church at noon Thursday, May 4, in the church dining room. Miss Ruth Minto is chairman, assisted by Mrs. Ed Kidera.

Sabonjian to speak at Jaycees Dinner

The honorable Mayor Robert Sabonjian will be the speaker for the evening at the installation dinner for the Antioch Jaycees.

The Antioch Chapter of the Jaycees has been re-organized and this dinner will be for the installation of the new board of directors. Installed at this time will be: Tony Starcevic, President; Dale Yoder, Internal Vice President; Terry Folbrink, External Vice President; Brad Ipsen, Treasurer; Ed Roach, Secretary; Jim Koppa, Tom Conroy and Tom Bartell, Directors; and Larry Schletty, State Director.

The dinner will be held at Lorenz's Country House with cocktails at 6:30 and dinner at 7:30. Tickets are available at the State Bank of Antioch, Stanley's Men's Fashions, or Cermak Realty; are \$6.00 per person, and must be purchased prior to noon, Friday, May 5, 1972. All interested persons are invited to attend, any questions contact Jim Koppa, the dinner chairman, at 395-1566.

Republican Federation Elects Officers

Gordon H. Smith of Lake Forest was reelected president of the Lake County Republican Federation at a board meeting Tuesday in a Swedish Glee Club, Waukegan.

Also reelected were Marshall R. Schroeder, Ingleside, treasurer; Mrs. Harvey A. Metzler, Gurnee, executive secretary, and County Republican Chairman Robert J. Milton, Lake Forest, member of the executive committee.

Two new vice presidents were named, Mrs. Augustin S. (Margaret) Hart, Lake Forest, and William Brook, Antioch. Appointed to fill a vacancy on the board of governors was Burton E. Diamond of Waukegan.

The Federation has made tentative plans for a fund-raising dinner in early June, Smith announced.

The three villains in the PM&L production of "Wait Until Dark" are rehearsing their "villainous" parts. Left to right they are Manny Silverstein of Ingleside as Sgt. Carlino, Director Don Beveroth of Paddock Lake, Wis. as Harry Roat, Jr. and Tony Aird of Round Lake Beach as Mike Tallman. The upcoming mystery drama opens Friday and Saturday nights at 8:30 at the PM&L Theatre. (Photo by B-J Rush)

"Wait Until Dark" Opening This Week End

The curtain will be going up this weekend on Wait Until Dark, PM & L's first mystery drama since the group opened at the PM & L Theatre, 877 Main St., Antioch approximately nine years ago with Night Must Fall.

Wait Until Dark directed by Don Beveroth will be given May 5, 6, 12, 13, 19, and 20. Curtain time is 8:30 p.m. Reservations can be made by calling 395-9702. This is the third production of Season 11 for Season ticket holders. Admission at the door is \$2.25 for adults and \$1.00 for students.

The play is a battle of wits from beginning to end that crescendos to a shocking finish. A blind girl, Susie Hendrix, played by Dena Fabry is a victim of circumstances involving three crooks played by Tony Aird, Manny Silverstein, and Don Beveroth. Their action hinges on the

finding of a lost doll that has to be in Susie and Sam Henrix' apartment -- the value unknown to them.

The story is a rousing example of chilling menace. The audience finds that Susie is a courageous and enterprising young woman who can handle a scoundrel better than the next one and finds the threatening forces of evil a challenge to her wits and guile as well as a terrifying peril.

Nick Baldassano plays her husband, Sam, and ten year old Suzi Dyer plays Gloria who lives upstairs and appears at the most unexpected times. Earl Kramer and Russell Matthews play the two policemen.

A large technical crew headed by technical director Bill Sershon and business manager Dee Baum assist the director in a smooth and challenging performance of the macabre.

Babe Wagner Honored

On Sunday, April 30, nearly 200 people came out to The Antioch Country Club to honor Babe Wagner of Camp Lake, Wisconsin. For benefit of those people who don't know who Babe Wagner is - her name is synonymous with "organ". The Babe Wagner Committee comprising of Millie Luehr, "Chip" Schley, Mary Ann McGee, Dot & Ron

Above: Babe Wagner at the organ.
Below: Husband Ben, and Babe Wagner. (Staff Photo)

was active in the Red Cross during World War II, writing to over 400 boys in the service.

Moving to Camp Lake in 1953 brought 11 years of playing the organ at Smart's Country House with husband bartending as he is yet today at what is now known as Lorenz Smart Country Club.

From there Babe has played at the Angels-Trevor; Bud and Ann's-Channel Lake; Patty's Lounge-Channel Lake; Kelly's, Lake Villa; Bristol Oaks Country Club, Hunters Country Club; Brass Ball Corners, Salem; and most recently finished an engagement at Andres Steak House in Richmond.

Babe has been a member of the American Federation of Musicians since 1923, Local 10-208 and has received a Gold Union card. She also belongs to the Waukegan and Elgin AFM; St. Peter's Catholic Church, Women of the Moose No. 735, and holds an honorary membership card from the Waukegan Police Dept.

Crane, Jack Gillespie & Dorothy and Florence Druehl, decided that the best way to honor Babe was to do a THIS IS YOUR LIFE program.

Many surprises were in store for Babe. A tape recording of her sister, Marie Addie, of Hot Springs, Ark. was played - and of course her husband, Ben, was on hand along with Al Determan who was an original member of 'Babe's Keeley Baseball team, James Young; Florence Rude; their son Jimmy Waltz and his family; Ann Cain; Fr. Herbst; Paul Druehl; Fr. Strenski; and Earl Elfers.

Babe started piano lessons at the age of 5. She played

professionally at 11 and after 14 years changed to organ where she played in Chicago with the silent movies. She was one of the last organists to leave the theatre because of Sound - talking movies.

Babe married Ben Wagner on Sept 28, 1929.

From the closing of the silent movies, Babe and Ben had a tavern on Halstead St. - known as BABES TAVERN. They sponsored a baseball team "BABE'S KEELEY KIDS", was a member and president of the ALL MALE but one - businessmen Association; was the only woman president of the Soft Ball League in Chicago; and

Helpful Hints

Mini pizzas make great quick snacks for unexpected parties. Just split six small English muffins and place them on a baking sheet. Top each with a slice of Cheddar cheese and 1 tablespoon chili sauce. Cut 6 brown and serve sausages into 10 crosswise slices each and place 5 penny slices on each muffin. Sprinkle with leaf oregano and grated Parmesan cheese. Bake 10 to 12 minutes or until heated through.

The barbecue season will soon be here. If steak is your favorite barbecue fare, vary the flavor by rubbing the meat with garlic before broiling then brushing with butter occasionally while the meat cooks over the hot coals. Or

top that steak with fresh sliced mushrooms and green onions that have been sauteed in butter.

Green Thumb Tips

The new way of growing sweet peas does away with those deep trenches of yesterday.

Instead, furrows are made only 3 inches deep, seeds set singly in the bottom, then soil is drawn into the furrow as seedlings grow, thus supporting them until they can climb.

Red-stalked rhubarb, when cooked, is sweeter to taste than green-stalked rhubarb and makes prettier sauce.

Shasta daisies are easily grown from seeds. Many varieties bloom for as long as a month.

While best treated as biennials, that is with seed sown one year for flowers the next, Shasta daisies really are perennials.

Simplify Baking For Spring

When warmer weather beckons the family outdoors, mom needn't be left behind in the kitchen. She can do the baking and still have time to enjoy spring's many activities. The secret is relying on convenience foods when making the family favorites. For sour cream cake at its easiest, start with cup cake mix. Combine it with sour cream and eggs, and the cake batter is ready for the oven. Plan on frequent requests for seconds of this moist and tender cake topped with chocolate butter frosting.

Easy Sour Cream Cake Makes 9 servings

Cake:
One 11½-oz. pkg. Flako Cup Cake Mix
½ cup dairy sour cream
2 eggs

1½ cups sifted confectioners sugar
2 tablespoons milk
1 oz. (1 sq.) unsweetened chocolate, melted and cooled

Chocolate Frosting:
3 tablespoons butter or margarine

Heat oven to moderate (350°F.). Grease and flour an 8-inch square baking pan. Place small amount of cup cake mix in mixer bowl; alternately add sour cream and remaining cup cake mix, beating well after each addition. Add eggs. Beat 1 minute. (If using mixer, beat at low speed.) Pour batter into prepared pan. Bake in preheated oven (350°F.) 20 to 25 minutes.

Let cake cool ten minutes or until cake leaves side of pan. Loosen with knife or spatula and cool on a wire rack. For frosting, beat together butter and sugar until fluffy. Slowly add milk. Stir in melted chocolate. Frost top of cake.

Obituaries

MR. GEORGE L. SCHMIDT - 36 years old of Rosing's Subdivision near Antioch, passed away on Saturday April 29, 1972 at Victory Memorial Hospital from a heart attack. He was born November 4, 1935 in Woodstock, Illinois and moved to Camp Lake, Wisconsin then to Antioch 18 years ago. He had been employed for 18 years as a butcher for the Antioch A&P Store, and holds membership in Local No. 262 of the Amalgamated Meat Cutters Union. He married Diane Van Hilst on September 22, 1956 at Antioch.

Survivors are his wife Diane - 3 sons Jeff, Jerry & Johnny and 1 daughter Jenny Schmidt (all at home) 4 brothers Robert G. Schmidt (Libertyville, Ill.) Richard D. Schmidt (Waukegan, Wis.) Gordon L. Schmidt (Louisville, Ky.) James L. Schmidt (Watertown, Wis.) 1 sister Mrs. Susan (Nicholas) Salerno (Kenosha, Wis.) he was preceded in death by 1 brother Donald E. Schmidt on April 25, 1965.

Funeral services were held on Monday at 11:00 a.m. at the Strang Funeral Home in Antioch. Interment was in Hillside Cemetery at Antioch.

Christian Science Churches

The understanding of the brotherhood of men is brought out in this week's Lesson-Sermon entitled "Adam and Fallen Man". In Malachi 2 we read "Have we not all one father? Hath not one God created us? Why do we deal treacherously every man against his brother".

From Science and Health with Key to the Scriptures by Mary Baker Eddy this citation will be read: "It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Mankind will become perfect in proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established."

Services at First Church of Christ, Scientist, BEACON HILL, Rte 173 and Harden, Antioch, Illinois begin at 11 A.M. Everyone is invited to attend.

THE TRUTH THAT HEALS

Charles Waters Named To Committee

Charles Waters, 9820 S. University, Chicago, is among 38 Aurora Illinois College students named to new student-faculty curriculum committees.

Waters, a junior, is a 1969 graduate of Antioch Community High School.

Aurora will introduce an innovative, new curriculum this fall. Features are increased faculty advisement, programmed enrichment activities and opportunity to earn a degree in three years. More information or applications for fall enrollment are available from the college admissions office. Phone 312-892-6431.

Light Fantastic

Picturephone transmission over a laser beam highlights a program to be presented on May 8, 1972 to the general public at the College of Lake County at 10:30 a.m. and 1:30 p.m.

Narrator for the "Light Fantastic" program will be Sheila Haverty, Public Relations Assistant with Illinois Bell Telephone. Miss Haverty will explore other applications of laser communication including data transmission. The program also includes an explanation of laser technology in medicine and industry.

For further information, interested persons are asked to contact Mr. Haas, CLC counselor, at the College offices, 223-8193.

SEARS TO INSTALL ANTENNAS

Sears, Roebuck and Co. has announced plans to reinforce Sears Tower to provide for possible installation of television antennas.

In addition, the company said it is planning to order special signal-absorbing materials upon final confirmation of testing results expected in the immediate future. These materials will be installed on upper floors of the building to minimize any reflection from transmitters on the John Hancock Center.

Arthur M. Wood, president of Sears, also announced that "appropriate papers" are being filed today with the Federal Aviation Administration requesting permission to install 350-foot antennas on the roof of Sears Tower.

Sears' decision to strengthen the building would permit the remaining broadcasters to add structural masts and antennas at some time in the future, if they choose to do so.

All Chicago television stations had suggested some time ago that Sears reinforce the building for possible installation of antennas at some future date.

The decision to reinforce, he said, was made "in an effort to provide the widest possible range of solutions to the potential television interference from Sears Tower." Reinforcing would be necessary to support the additional weight of antennas.

Hometown News

Wendy Jensen On President's List

Miss Wendy P. Jensen, daughter of Mr. and Mrs. Robert Jensen, 477 First Street, Antioch, has been named to the President's List at North Central College in recognition of her scholastic achievement during the winter term of the 1971-72 academic year.

A 1970 graduate of Antioch Community High School, Miss Jensen was one of 109 students named to the list by Dr. Arlo L. Schilling, president of the college.

To be eligible for the President's List, a student must be enrolled for at least 2.5 course units during the term and earn a grade point average of at least 3.700 for that term or a cumulative average of 3.500. Grade points are

awarded for completed course work on the basis of four for an "A", three for a "B", two for a "C", and one for a "D".

MARINE PFC.

DARWIN M BEYER

Marine Pfc. Darwin Beyer, son of Mr. and Mrs. Clarence L. Beyer of 75 W. Grand Avenue, Lake Villa, Ill., was promoted to his present rank while serving at the Marine Corps Base, Okinawa.

A former student of Antioch High School, Antioch, Ill., he joined the Marine Corps in December of 1970.

DEADLINE FOR GIFT TAX RETURNS

Persons liable for gift tax returns have an important deadline to remember, the Internal Revenue Service announced today. According to Roger C. Beck, IRS District Director for northern Illinois, May 15 will be the last day for filing the new Quarterly Gift Tax Return for his quarter.

Mr. Beck explained that under the Excise, Estate and Gift Tax Adjustment Act of 1970, gift tax returns must be filed and the payment of gift taxes made on a quarterly basis, rather than on an annual basis, as was the previous procedure.

Gifts made after 1970 must be reported on the new Form 709, US Quarterly Gift Tax Return (Revised September 1971). This return is due the 15th day of the second month after the calendar quarter in which the gifts were made. For gifts made in January, February or March of 1972, a gift tax return must be filed by May 15, 1972.

The new Gift Tax Return, Form 709, and instructions for filing, are available at all Internal Revenue Service offices.

AIRMAN

DAVID E. NAYLOR

Airman David E. Naylor, son of Mr. and Mrs. James D. Naylor of Rte 1, Salem, Wisconsin has completed his U.S. Air Force basic training at the Air Training Command's Lackland AFB, Tex. He has been assigned to Keesler AFB, Miss., for training in communications-electronics systems. Airman Naylor attended Salem Central High School. His wife Cheryl, is the daughter of Mr. and Mrs. Lyle J. Chevrette of Rte 1, Gwinn, Mich.

SGT.

JAMES E. GILLILAND

James E. Gilliland, son of Mr. and Mrs. George E. Gilliland, 1958 E. Old Elm Road, Lindenhurst, Ill., has been promoted to sergeant in the U.S. Air Force.

Sergeant Gilliland, an administrative specialist at Ubon Royal Thai AFB, Thailand, is assigned to the USAF Postal Courier Service.

A 1967 graduate of Antioch Illinois Community High School, he attended Western Illinois University and is a member of Tau Kappa Epsilon.

SEQUOIT SMOKE Signals

Well everyone is looking forward to the big weekend coming up. At first it didn't look like many people were going to go, but now the Prom and Post Prom list has reached over the hundred mark. It should be well worthwhile!

Colorful, cartoon storybook characters livened up the cafeteria Saturday night as the G.A.A. storybook came to life. This year's banquet was one of the best ever, holding surprises and laughter for all who attended. The new G.A.A. officers were announced; SANDI STEWART will be next year's president, ROBIN ELLIS will be vice president, SHARRON HALL and BARB DODD will be the secretaries, LOIS GEIST, the sports manager, and MARCIA KREOPLIN, the new treasurer. CAROL WELLS was pleasantly surprised when she was named the G.A.A. ALL STAR CAPTAIN, as was LYN HALL when it was announced she

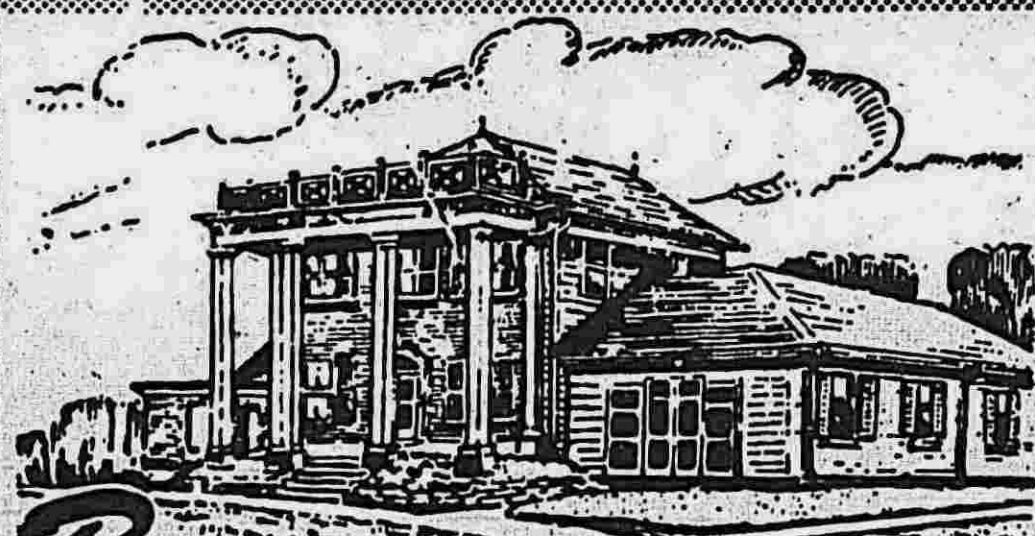

would receive the Donna Costoff Scholarship. SUE DOBSLAF and DIANE FISHER also received a special award. They are the proud winners of the Sally Brown Award which is given each year to those super athletes who are always out there trying... and trying... and trying! The seniors gave their farewell performance to the group to add to the amusement. As Miss Arendt said they still haven't learned how to spell... or have they!

The Spring sports are coming along great!!! The TRACK team is in first place with an undefeated record. The BASEBALL team is really coming along. Right now they are in second place only one game out of first.

Congratulations to the new COLORGUARD members who were also announced at the G.A.A. Banquet. Congratulations also to the new members of the ACAPELLA CHOIR.

A lot of work was put into Monday night's RAP SESSION by the student council and executive boards. Maybe this time, if everybody works real hard, the referendum will pass. See you next week,

Ball Corporation To Recycle Glass

Glass containers to be
recycled into new bottles and
jars must be free of metal
contaminants and separated by
color. Bill Stone, manager of
the Ball Corporation plant at
Mundelein emphasizes.

Ball is one of eight Illinois
glass container plants
participating in an
industry-wide recycling
program. Containers brought
to the Ball plant on Route 60,
east of Route 45, between 1
and 4 p.m. on Wednesdays and
Saturdays are purchased by the
company at a penny per
pound.

Church, civic, and youth
organizations have benefited
from bottle and jar collection
and redemption programs,
Stone noted. "We're pleased to
work with these groups in our
area and really would hate to
have to reject any collection
effort. Quality control in the
making of new jars demands
that metal rings be removed
and that colored containers be
separated."

The Ball plant produces
only clear (flint) jars and thus
cannot recycle green or amber,
Stone explained. Arrangements
with another manufacturer
have made possible Ball's
collection of colored
containers for recycling as a
public service to area residents.
Because green and amber jars
contain traces of chemicals not
readily absorbed in the
remelting of other glass,
separation by color is required.
This separation can most

readily be done as containers
are collected, and prohibitive
handling costs would be
involved if plants endeavored
to do this in addition to the
penny a pound payment.

Redemptions of more than
100 tons of containers per
month at Mundelein are not
unusual, Stone said. Spring and
summer are particularly busy
periods at the recycling
centers.

Located one mile north and west of Antioch at the junction of Trevor Road and Wisconsin JF is a perfect blend of antique surroundings and delightful dining cuisine: the Colony House.

The lovely country restaurant is nestled between rich Wisconsin farm lands and the picturesque Rock Lake community of Trevor, Wisconsin.

Inside, the Colony House is a page of history turned back to the delight of its patrons. The decor features an authentic colonial atmosphere resplendent in its core for detail. Throughout the building antique furnishings, curios and authentic antiques immeasurably add to the total experience.

A large fireplace and heavy oak tables and chairs of colonial vintage are beautifully illuminated by ornate kerosene lamps only recently converted to electricity.

Even though the watchword for the COLONY HOUSE is tradition, the menu reflects the best examples of contemporary tastes. Choice cuts of beef are well balanced by an excellent

Guide

choice of fowl and seafood entrees. Prime Rib, Filet Mignon, Veal Cordon Bleu, Imported Dover Sole, African Lobster, Shrimp DeJonghe and Roast Quail are only a few of the excellent offerings that grace a well balanced bill of fare.

COLONY HOUSE owners Carl and Lee Puryear are also understandably proud of their relish tray, and their homemade pastries and freshly baked bread.

The COLONY HOUSE also features a fine selection of imported and domestic wines.

Dining is a slow, leisurely occurrence at the Colony House and understandably so. Patrons would be doing themselves, and their hosts, a disservice if they do not avail themselves proper time to savor the well prepared courses. A further glimpse into colonial life is provided by the friendly and attentive waitresses dressed in colonial costume.

For a pleasant dining experience in a lovely early american setting, far from the hurry and distraction of modern day life, the COLONY HOUSE is sure to fill the bill.

Channel Lake PTA Fun Fair

The Channel Lake PTA will hold its annual FUN FAIR in the school gym on Saturday, May 6th, from 2: P.M. till 7:00 P.M. There will be games to play and prizes to win. The favorite game of the FAIR will be the dart throwing board featuring your favorite (?) people.

The kitchen will serve chocolate and strawberry sundaes for your afternoon pleasure. Plan to round out the day with supper of Hot Dogs, Chips, Pop and Coffee.

The highlight of the FAIR will be the drawing of FREE DOOR PRIZES beginning at 3:00 P.M. These prizes have

been made possible by donations of Channel Lake Businessmen. Tickets will be sold at the door. Come one, Come all. Bring Mom and Dad to try their skills at the games. Make it a Family Fun Fair.

Creature Feature Film

AT UPPER GRADE CENTER.

A Creature Feature film will be shown at the Antioch Upper Grade Center on May 19, 1972 at 7:45 p.m. Admission is \$.50. Refreshments will be available.

The Movie is sponsored by the Student Council. Mr. Thomas Fronsee is the Student Council Advisor.

EMMONS HONORS

ARBOR DAY

Long time Antioch citizen, Dr. G.W. Jensen, helped Emmons School celebrate the 95th Arbor day in Illinois, Friday, April 28. Dr. Jensen, a veterinarian, donated a sugar maple which was planted in an afternoon ceremony.

The ceremony included a speech by Jeff Eder, an eighth grade student at Emmons. Dr. Jensen addressed the gathering, before planting the tree along with Miss Jamie Vernon and Mr. Mike Mitchell of the Emmons Math and Science Departments. Assisting in preparing for the tree planting, were eighth grade students, Dave Lagerstrom, Art Bickel, Jim Mrnak, and Tom Grego.

Ventriloquism was mentioned by Confucius 500 years before the time of Christ.

Continuous Paper Drive

The 4-H Jr. Leader Organization (JLO) of Lake County is holding a continuous paper drive throughout the spring and summer.

Papers, tied in bundles, may be brought to the Robert Dahl farm anytime. However, persons bringing papers are asked to first call Mr. or Mrs. Dahl at 362-1639. If possible do not bring magazines. The farm is located on Rte. 21, 1 block west of Rte. 45. It is the

first farm on the north side of the road.

If you are unable to transport the papers to the farm, you may ask to have them picked up in the near future, by calling the Cooperative Extension Service at 223-5844.

PTA MEETING

The Channel Lake PTA will hold its final meeting of the year on Monday, May 8th, at 7:30 P.M. On the agenda is the installation of the new officers for the coming year, report of the auditing committee, report of the Fun Fair and a buzz session to discuss plans for the new PTA year. Refreshments will be served by fifth grade. Plan now to attend.

Gym Show At Upper Grade

On Tuesday May 9th, at 7:30 p.m., the students at the Antioch Upper Grade Center will present a Gym Show.

Mrs. Alexis Spangler and Miss Sally Deadrick, girl's physical education teachers, are helping the students prepare the show.

SUPPER CLOSES

PARENT CLUBS

SCHOOL YEAR

On Tuesday, May 9, 1972 at 6:30 P.M. in the cafeteria, The Fathers Club and The Mothers Club of Carmel High School in Mundlein will have a joint pot luck supper to close the current school year. Following the social hour and supper, to which all Carmel parents and guardians are invited and asked to bring a dish to pass, the Mothers Club will install new officers who are: Rita Schueneman, Pres.; Colleen Kasting, Vice Pres.; Norma Logue, Secretary; and Ann Buck, Treasurer.

The 100th Anniversary of Arbor Day was celebrated by the Lake County Forest Preserve District on Friday, April 28th. Students representing the Antioch District 34 schools were: Paul Maplethorpe, Upper Grade School; Shelley Ester, Antioch Grade School; Patty Moeller, Oakland School and Kim Conklin, Channel Lake School.

Each of them assisted in the planting of trees at the Lakewood Forest Preserve. They were also given four seedlings - two to be planted at their schools and two at their homes.

Parents Important to success of 4-H

Young people join 4-H to belong, to do things with friends, to learn skills, to have fun, to succeed.

Their success in 4-H, as in other endeavors, depends to a large extent on the understanding and support of their parents.

Parents need to understand what 4-H is. 4-H is an informal educational program based on the concept of learning by doing.

Projects and activities are the means through which skills and attitudes are taught.

What type of support is needed?

Members need the moral support of their parents, as well as actual assistance with their projects and records.

They need to be encouraged to give demonstrations, take part in judging and exhibits, be active in club events, and to

work toward fulfilling the 4-H motto: "To Make the Best Better."

Leaders cannot accept parents' responsibilities. Most leaders have families of their own, work to do, and are involved in other community activities.

The success of a 4-H club and the success of each 4-H member depends on parent interest and support. Parents need to attend club meetings, furnish refreshments, furnish transportation to special events, and serve as leaders when needed.

The growth and development of young people is a function shared by the state and community, but the primary responsibility is with the parents.

Are you fulfilling your responsibility as a parent in 4-H???

College Credits For Training

Air Force members this fall will receive college transcripts for educational military experiences. The credits will be issued by the Community College of the Air Force that will be activated in April at Randolph Air Force Base, Texas.

This new and unique Air Force organization will be tasked with insuring that airmen receive the greatest possible benefit from their Air Force training and educational experience.

"The Community College of the Air Force," according to Gen. John D. Ryan, Air Force chief of staff, "is unique in that it will have no campus, no instructors, and no students of its own."

The college staff will initially be working to assign college-level credit equivalent to military courses. For example, an airman who attends a course to become a supply systems specialist might receive two hours of college-level credit in computer fundamentals and three hours of credit in computer operations.

The Air Training Command, which is responsible for overseeing Air Force technical training, is reviewing hundreds of courses to see what kind of credit might be given for each.

Air Force officials say the Community College concept will open new doors to airmen who hope to develop certified or licensed skills recognized

and employed both in the Air Force and in the civilian world. They call it another way that the Air Force will provide qualified skilled men and women to the civilian community and add to the national resource of trained personnel.

Once the credit for each course has been determined, the Community College will be able to issue a transcript indicating the hours of work with which each student is credited.

Another task of the Community College is to have the credits recognized. Accreditation is desirable because it provides assurance to institutions of higher education that an independent educational accrediting association has conducted a thorough review of Air Force technical training and found it to meet comprehensive standards required.

Affiliation with an Association of Colleges and Schools is the first step toward obtaining accreditation. The Air Force Technical Schools at Keesler AFB, Miss., Sheppard AFB, Tex., and Lackland AFB, Tex., all have been approved for affiliation with the Southern Association of Colleges and Schools. The other technical schools at Lowry AFB, Colo., and Chanute AFB, Ill., are working toward accreditation with the North Central Association.

Lake County Blind Assn Meeting

"The Harmonica Today" will be discussed by Richard L. Reynolds for the Lake County Blind Association at 2 p.m. Sunday (May 7) at the new activities center, 916 Glen Flora Avenue, Waukegan.

Reynolds will trace the origin and evolution of the harmonica, and play a concert. He has been a harmonica enthusiast since boyhood and has taught the instrument to children, as many as 25 at a time. He said children find it entertaining and a good introduction to more sophisticated instruments.

A teacher in the adult evening education center of

North Chicago Community High School, Reynolds writes short stories for magazines and is co-editor of the newsletter of the Friends of the Waukegan Public Library.

Sunday's program will formally open the roomier activities center, which formerly was located in a basement on Washington St. "We want people to drop in and get acquainted," said James K. Miller, Treasurer. "By distributing literature on the prevention of blindness and supplying other information, we hope to be a service to the community."

The blind people have literature discussions at the

center biweekly on Tuesdays. Short stories by Boccaccio and De Maupassant are set for reading and evaluation at 7:30 p.m. May 9. An interesting program recently, Miller said, was a talk by Peter Paulson of the Parkway Restaurant on food preferences of the dining public.

The center has workshop facilities where members produce handiwork articles that are displayed and sold. The blind craftsmen have planned product sales at shopping centers throughout the country for the next four months.

JULIO TO ENTERTAIN SENIOR CITIZENS

Members of Antioch Area Chapter, AARP, No. 387 and their guests having intentions of making the fifteen day trip to the Hawaiian Islands, leaving on June 10, 1972 and returning on June 25th must pay \$100.00 deposit by May 5th.

A regular business meeting will be held on Tuesday May 9th, at the Antioch Savings and Loan at 12:30 p.m. Coffee and cake will be served followed by a short business session.

Jean Irving, President of

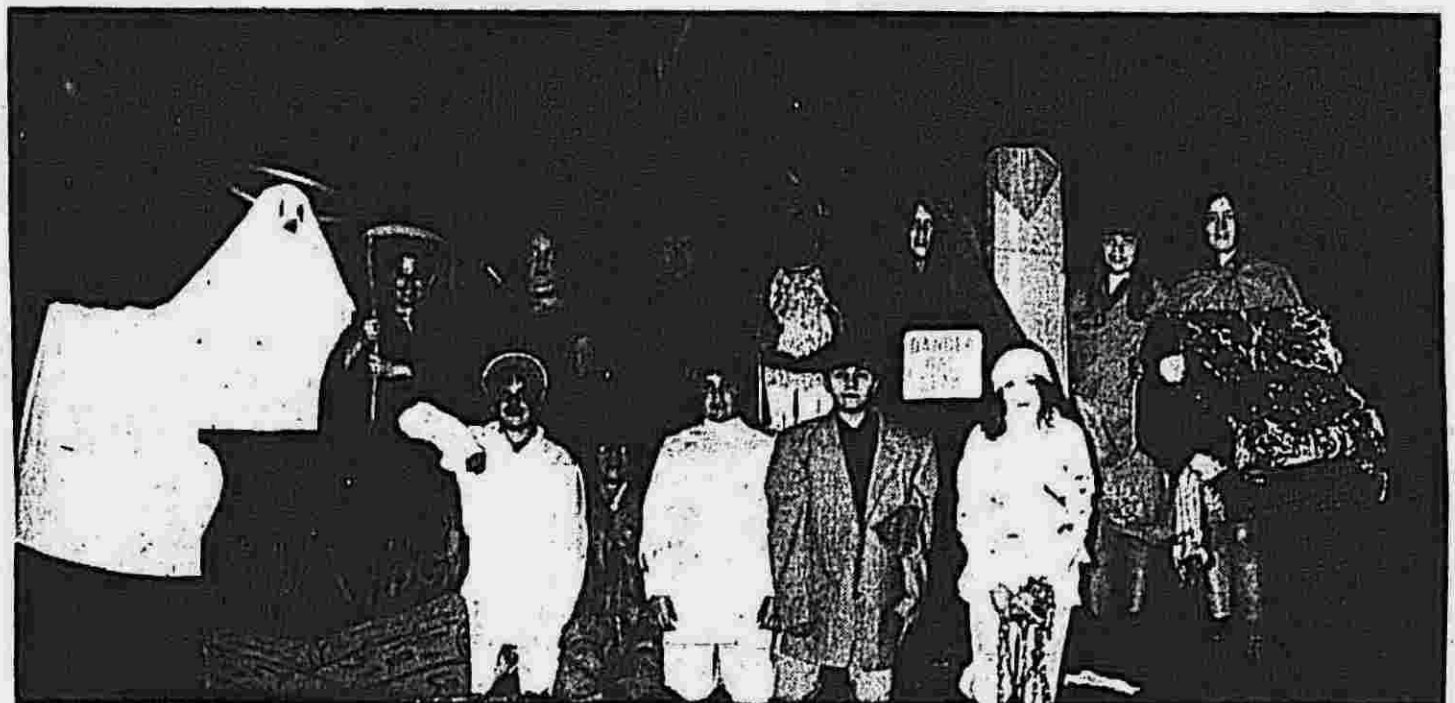

American Field Service, Foreign Exchange Student Scholarship Program will then introduce Mr. Julio Sanchez, of Costa Rica, Central America. Mr. Sanchez is staying with the Family of Mr. and Mrs. Charles Maplethorpe and attends Antioch High School as an exchange student.

Mr. Sanchez is an honor roll student at Antioch High School, the first one under the student-exchange program at the age of 17, and is very interested in medicine and expects to study to become a

doctor in his country as he wishes very much to assist his people under the health program.

Mr. Sanchez will entertain the members of the Chapter with a talk on his country and show slides of industries there along with country views.

Chapter members wishing to make the trip to China Town on Wednesday, May 24th, can get their tickets at the meeting on May 9th, at \$3.50 each - this covers the bus, meal and tour of China Town.

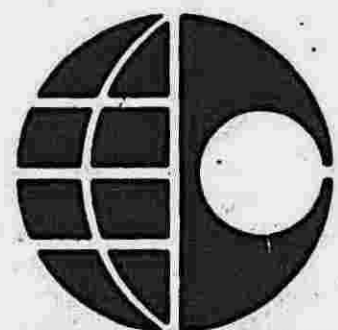

SHARE-THE-FUN — 4-H FUN

Last Tuesday, April 24, the Antioch Chiefs and Squaws 4-H Club put on a play for Share-the-Fun. The play was about pollution and all the club members portrayed monsters making different types of pollution.

Members in the play were (l to r front) Steve Burrett as street sweeper, Chuck Auxier as Hunchback auto pollution; Jack Ester as Mad Scientist - Pollution from Factories; Jody Koch as Frankenstien - Noise Pollution; and Diane Perry as Chain Smoker. (row 2) Colleen Moore as Ghost in the garbage can, Jamie Vasek as Witch - Garbage pollution; Candy Bailey as Lillian Munster, introduction; Marilyn Harmon as Dracula - smoking pollution; Jo Vasek as Witch Dr. - Overpopulation; Eva Auxier as Blob of Oil - Water pollution; Tammy Ester and Sue Amundsen as Dirty Dragon - Pesticide Pollution.

NOTICE OF SPECIAL ELECTION School District Number 36 Lake County, Illinois

NOTICE is hereby given that on Saturday, the 3rd day of June, 1972, a special election will be held in and for School District Number 36, Lake County, Illinois, for the purpose of voting on the following proposition:

1. Shall the Board of Education of School District Number 36, Lake County, Illinois, build and equip an addition to and alter, repair and equip the present school building now owned and used by the District for school purposes and commonly known as the "Grass Lake School Building", and to pay the cost thereof issue bonds of said District to the amount of Two Hundred Ninety-five Thousand Dollars (\$295,000)?
2. Shall the maximum annual tax rate for the building fund of School District Number 36, Lake County, Illinois, be increased and established at .55 per cent on the full, fair cash value of taxable property as equalized or assessed by the Department of Local Government Affairs instead of .25 per cent, the maximum rate otherwise applicable to the next taxes to be extended for said purpose?

(a) The approximate amount of building taxes extendible under the maximum rate now in force in said School District is \$19,936.60.

(b) The approximate amount of building taxes extendible under the proposed increased rate is the sum of \$43,860.52.

That for the purpose of said election said entire School District constitutes a single voting precinct and the polling place designated for said election is as follows:

Grass Lake School Building
Lake County, Illinois

The polls at said election will be opened at twelve o'clock Noon and will be closed at seven o'clock P.M. on said day.

By order of the Board of Education of School District Number 36, Lake County, Illinois.

DATED this 11th day of April, 1972.

Lawrence Yopp
President, Board of
Education of School
District Number 36, Lake
County, Illinois.

Secretary, Board of Education
of School District Number 36,
Lake County, Illinois.

May 3, 1972

AN ORDINANCE authorizing and providing for the issue of \$350,000 Waterworks and Sewerage Revenue Bonds, Series of 1972, of the Village of Antioch, Lake County, Illinois, for the purpose of defraying a part of the cost of improving and extending the combined waterworks and sewerage system of said Village, prescribing all the details of said bonds, and providing for the collection, segregation and distribution of the revenue of the combined waterworks and sewerage system of said Village for the purpose of paying the cost of the operation and maintenance thereof, providing an adequate depreciation fund therefor and paying the principal and interest of said Waterworks and Sewerage Revenue Bonds.

WHEREAS, the Village of Antioch, Lake County, Illinois, has heretofore, by ordinance, provided for the combination of its existing municipally-owned waterworks and sewerage systems into a combined waterworks and sewerage system and is now operating the same as a single utility, all in accordance with the provisions of Division 139 of Article 11 of the "Illinois Municipal Code", approved May 29, 1961, and all laws amendatory thereof and supplementary thereto; and

WHEREAS, it is deemed advisable, necessary and in the best interests of the public health and safety that improvements and extensions to such combined waterworks and sewerage system be constructed in order to meet current water quality control standards established under the Environmental Protection Act of the State of Illinois and Federal laws, said improvements and extensions to consist of a contact stabilization treatment plant, tertiary filters, sludge processing equipment and chlorination equipment, the construction of a new interceptor sewer from Depot Street to Ida Street, the construction of a new well and installation of related pumping and electrical equipment, and including all necessary equipment, appurtenances, controls, wiring and valves required to make these improvements and extensions an integral part of the combined waterworks and sewerage system of said Village, all in accordance with the plans and specifications and estimate of cost thereof heretofore approved by the President and Board of Trustees of said Village and now on file in the office of the Village Clerk for public inspection; and

WHEREAS, the total estimated cost of the construction of such improvements and extensions to the combined waterworks and sewerage system, including engineering and administration costs, legal fees, contingencies and bond discount, as prepared by the engineers of said Village employed for that purpose, is the sum of \$600,000; and

WHEREAS, the Village of Antioch expects to receive grants from the United States Government and from the State of Illinois to apply toward the cost of constructing said improvements and extensions to the system, and in order to raise the remainder of the funds required it will be necessary for the Village to borrow the sum of \$350,000 and in evidence thereof issue its Revenue Bonds in the principal amount of \$350,000 for the purpose of paying part of the cost of the construction of said improvements and extensions to the combined waterworks and sewerage system; and

WHEREAS, pursuant to ordinance adopted by the President and Board of Trustees on July 3, 1962, said Village authorized the issuance of \$315,000 Waterworks and Sewerage Revenue Bonds, dated July 1, 1962, of which bonds in the aggregate principal amount of \$265,000 are presently outstanding and unpaid, and in and by Section 12 of said ordinance the Village reserved the right to issue additional bonds on a parity to share ratably and equally in the revenues derived from the operation of the combined waterworks and sewerage system of the Village, provided that the revenues derived for the fiscal year then next preceding were sufficient to comply with the restrictions therein prescribed; and

WHEREAS, the President and Board of Trustees of said Village have made a preliminary determination that the revenues to be derived from the operation of the combined system for the fiscal year ending April 30, 1972 will be sufficient to comply with the restrictions prescribed for the issuance of the additional bonds on a parity, and prior to the delivery of the bonds herein authorized there will be presented to the President and Board of Trustees for approval and filing with the Village Clerk the annual audit showing the receipts and disbursements on account of said system and a certificate executed by a Certified Public Accountant to evidence compliance with all restrictions for the issuance of additional bonds on a parity; and

WHEREAS, pursuant to the provisions of Division 139 of Article 11 of the "Illinois Municipal Code", approved May 29, 1961, as amended, this Village is authorized to issue Waterworks and Sewerage Revenue Bonds in an amount sufficient to pay a part of the cost of constructing said improvements and extensions:

NOW, THEREFORE, Be It Ordained by the President and Board of Trustees of the Village of Antioch, Lake County, Illinois, as follows:

Section 1. That the Village of Antioch, Lake County, Illinois, has heretofore and does hereby determine that the existing municipally-owned waterworks and sanitary sewerage systems of said Village as combined shall continue to be maintained and operated together as a combined waterworks and sewerage system of said Village, and said combined system shall include the entire waterworks and sewerage system of said Village, including all future improvements and extensions thereto.

Section 2. That said Village of Antioch, in the County of Lake and State of Illinois, has caused to be made an estimate of the cost of constructing necessary improvements and extensions to the combined waterworks and sewerage system of said Village, such improvements and extensions being described hereinabove in the preambles of this ordinance, and all in accordance with the plans and specifications thereof heretofore approved by the President and Board of Trustees and now on file in the office of the Village Clerk for public inspection, and has heretofore estimated and does hereby estimate that the cost of the construction of said improvements and extensions to said combined waterworks and sewerage system, including engineering and administration costs, legal fees, contingencies and bond discount, is the sum of \$600,000.

Section 3. That the President and Board of Trustees do hereby determine the period of usefulness of said combined waterworks and sewerage system, and the improvements and extensions to be made thereto as herein proposed, to be forty (40) years from the date of the bonds herein authorized.

Section 4. That the Village does not have sufficient funds available for the purpose of paying the cost of constructing said improvements and extensions to the combined waterworks and sewerage system, and for the purpose of paying part of the cost of the construction of said improvements and extensions it will require the issuance by said Village of \$350,000 Waterworks and Sewerage Revenue Bonds of said Village, bearing interest at the rate of not to exceed seven per cent (7%) per annum, payable on November 1, 1972 and semiannually thereafter.

Section 5. That for the purpose of defraying a part of the cost of the construction of the necessary improvements and extensions to the combined waterworks and sewerage system of the Village of Antioch, as referred to and described hereinabove in the preamble of this ordinance, there be issued and sold Waterworks and Sewerage Revenue Bonds of said Village in the principal amount of \$350,000, which bonds shall each be designated "Waterworks and Sewerage Revenue Bond, Series of 1972", be dated May 1, 1972, be numbered consecutively from 1 to 70, inclusive, be of the denomination of \$5,000 each, bear interest at the rate of not to exceed seven per cent (7%) per annum, payable on November 1, 1972 and semiannually thereafter on the first days of May and November in each year, and mature serially on May 1 of each of the years and in the amounts as follows (subject to the right of prior redemption hereinafter recited):

Principal Amount	Maturity
\$10,000	1974 to 1984, inclusive
\$15,000	1985 to 1990, inclusive
\$20,000	1991 to 1995, inclusive
\$25,000	1996 and 1997

provided, however, that of said bonds, bonds numbered 23 to 70, inclusive, in the aggregate amount of \$240,000, and maturing on May 1 of each of the years 1985 to 1997, inclusive, shall be subject to redemption and payment prior to their maturity, at the option of the Village, at par and accrued interest in the inverse order of their number, on any interest payment date on or after May 1, 1984. Written notice of its option to redeem and pay prior to their maturity any or all of said bonds which by their terms shall have become subject to redemption and payment shall be given by the Village to the holder of each such bond called for redemption, if known, by registered mail at least thirty (30) days prior to the date of redemption, or if the holders of any such bonds are unknown then notice of such redemption shall be given by publication of such notice at least once in a newspaper published and of general circulation in the City of Chicago, Illinois, and the date of the publication of such notice shall be not less than thirty (30) days prior to such redemption date, and any such notice shall designate the date and place of redemption of said bonds, which shall be at the bank or trust company to be hereafter designated as paying agent, shall designate the serial number and the aggregate principal amount of the bonds to be redeemed, and shall indicate that on the designated date of redemption said bonds will be redeemed by payment of the principal thereof and accrued interest thereon, and that from and after the designated redemption date interest in respect of said bonds so called for redemption shall cease.

Section 6. That both principal and interest of said Waterworks and Sewerage Revenue Bonds shall be payable in lawful money of the United States of America at such bank or trust company as may hereafter be agreed upon between the purchaser of said bonds and the President and Board of Trustees of said Village. That said bonds shall be signed by the President of said Village, sealed with the corporate seal of said Village and attested by the Village Clerk, and the interest coupons attached to said bonds shall be signed by the facsimile signatures of said President and said Village Clerk, and said officials, by the execution of said bonds, shall adopt as and for their own proper signatures their respective facsimile signatures appearing on said coupons.

Said bonds, together with the interest thereon, shall be payable solely from the revenues derived from the combined waterworks and sewerage system of said Village, and said bonds shall not in any event constitute an indebtedness of the Village of Antioch within the meaning of any constitutional or statutory limitation.

Any of said bonds may be registered as to principal at any time prior to maturity in the name of the holder on the books of said Village in the office of the Village Treasurer, such registration to be noted on the reverse side of the bonds by the Village Treasurer, and thereafter the principal of such registered bonds shall be payable only to the registered holder, his legal representative or assigns. Such registered bonds shall be transferable to another registered holder or back to bearer only upon presentation to the Village Treasurer with a legal assignment duly acknowledged or approved. Registration of any of such bonds shall not affect the negotiability of the coupons thereto attached, but such coupons shall be negotiable by delivery merely.

Section 7. Said bonds and coupons shall be in substantially the following form:

(Form of Bond)
UNITED STATES OF AMERICA
STATE OF ILLINOIS COUNTY OF LAKE
VILLAGE OF ANTIOCH
WATERWORKS AND SEWERAGE REVENUE BOND, SERIES OF 1972

Number _____ \$5,000

KNOW ALL MEN BY THESE PRESENTS, that the Village of Antioch, Lake County, Illinois, for value received hereby promises to pay to bearer, or if this bond be registered, as hereinafter provided, then to the registered holder hereof, solely from the Waterworks and Sewerage Fund of the Village of Antioch, as hereinafter mentioned and not otherwise, the sum of FIVE THOUSAND DOLLARS (\$5,000) on May 1, 19__, together with interest on said sum from date hereof until paid at the rate of _____ per cent (____%) per annum, payable on November 1, 1972 and semiannually thereafter on the first days of May and November in each year, upon presentation and surrender of the annexed interest coupons as they severally become due.

Both principal and interest on this bond are hereby made payable in lawful money of the United States of America at _____

This bond and the series of which it forms a part is payable solely from revenues derived from the operation of the combined waterworks and sewerage system of said Village, and not otherwise, and is issued under authority of the provisions of Division 139 of Article 11 of the "Illinois Municipal Code", approved May 29, 1961, and all laws amendatory thereof and supplemental thereto, for the purpose of paying a part of the cost of constructing necessary improvements and extensions to the combined waterworks and sewerage system of said Village of Antioch, and this bond does not constitute an indebtedness of said Village within any constitutional or statutory limitation.

This bond is one of an authorized issue of Three Hundred Fifty Thousand Dollars (\$350,000), numbered from 1 to 70, inclusive, of the denomination of Five Thousand Dollars (\$5,000) each, of like date and tenor except as to maturity, rate of interest and privilege of redemption, and of said bonds, bonds numbered 23 to 70, inclusive, in the aggregate amount of Two Hundred Forty Thousand Dollars (\$240,000) and maturing on May 1 of each of the years 1985 to 1997, inclusive, are redeemable at the option of the Village, prior to their maturity, at par and accrued interest to date of redemption in the inverse order of their number, on any interest payment date on or after May 1, 1984. That is to say, bond numbered 70 shall first be redeemed before bond numbered 69 is redeemed, and so on, continuing such priority of redemption as to all bonds so redeemable. Notice of the redemption of any or all of said bonds which by their terms shall have become subject to redemption shall be given by the Village to the holder thereof, if known, by registered mail at least thirty (30) days prior to the date of redemption, or if the holder thereof be unknown then such notice shall be published at least once in a newspaper published and of general circulation in the City of Chicago, Illinois, the date of the publication of such notice to be not less than thirty (30) days prior to such redemption date, and when any or all of said bonds which by their terms have become subject to redemption and payment prior to their maturity shall have been called for redemption, and payment made or provided for, interest thereon shall cease from and after the date so specified.

Under said Code and the ordinance adopted pursuant thereto, authorizing the issuance of this bond and the series of which it forms a part, the revenues from the operation of the combined waterworks and sewerage system of said Village shall be deposited in a separate fund designated as the "Waterworks and Sewerage Fund" of said Village, which shall be used only and is hereby pledged for paying the cost of operation and maintenance of said combined system, providing an adequate depreciation fund and paying the principal of and interest on the bonds of said Village that are issued under authority of said Code and are payable by their terms only from the revenues of said combined waterworks and sewerage system, and in making all payments required to maintain the accounts created under the terms of the ordinance pursuant to which this bond is issued.

It is hereby certified and recited that all acts, conditions and things required to be done precedent to and in the issuance of this bond have been done and have happened and have been performed in regular and due form of law, and that provision has been made for depositing in said Waterworks and Sewerage Fund the revenues received from the operation of said combined waterworks and sewerage system to be applied in the manner as hereinabove set forth, and said Village hereby covenants and agrees that it will fix and maintain rates for the use and service of said combined waterworks and sewerage system and collect and account for revenues from said combined waterworks and sewerage system sufficient at all times to pay the cost of maintenance and operation of said combined system, provide an adequate depreciation fund and to promptly pay principal of and interest on all bonds issued by said Village which by their terms are payable solely from the revenues of said combined waterworks and sewerage system, and to comply with all the covenants of and to maintain the accounts created by the ordinance pursuant to which this bond and the series of which it forms a part were issued.

ORDINANCE NO. 72-4-4

CONTINUED

This bond may be registered as to principal only in the name of the holder on the books of said Village in the office of the Village Treasurer, such registration to be evidenced by notation of said Treasurer on the back hereof, after which no transfer hereof shall be valid unless made on said books and similarly noted hereon, but it may be discharged from such registration by being transferred to bearer, after which it shall be transferable by delivery, but it may be again registered as before. The registration of this bond shall not restrict the negotiability of the coupons by delivery merely.

IN WITNESS WHEREOF, said Village of Antioch, Lake County, Illinois, by its President and Board of Trustees, has caused this bond to be signed by its President, its corporate seal to be hereto affixed and attested by the Village Clerk, and the coupons hereto attached to be signed by the facsimile signatures of said President and said Village Clerk, which officials, by the execution of this bond, do adopt as and for their own proper signatures their respective facsimile signatures appearing on said coupons, and this bond to be dated as of the first day of May, 1972.

President, Village of Antioch,
Lake County, Illinois.

Attest:

Village Clerk, Village of Antioch,
Lake County, Illinois.

(SEAL)

Section 8. That upon the issuance of any of the Waterworks and Sewerage Revenue Bonds herein provided for, the entire combined municipal waterworks and sewerage system of said Village of Antioch, for the purpose of this ordinance, shall be operated on a fiscal year basis commencing the first day of May and ending the last day of April of each succeeding year. From and after the delivery of any bonds issued under the provisions of this ordinance, all of the revenues from any source whatsoever derived from the operation of the combined waterworks and sewerage system of said Village, including all future improvements and extensions thereof, shall be set aside as collected and be deposited in a separate fund heretofore created and hereby continued and maintained, said fund being designated as the "Waterworks and Sewerage Fund" of the Village of Antioch, which shall constitute a trust fund for the sole purpose of carrying out the covenants, terms and conditions of this ordinance, and shall be used only in paying the reasonable cost of operation and maintenance of said combined waterworks and sewerage system, providing an adequate depreciation fund and paying the principal of and interest upon all revenue bonds of said Village which by their terms are payable solely from the revenues derived from the combined waterworks and sewerage system of said Village, and for the creation, maintenance and expenditure of the respective accounts as hereinafter provided for.

Section 9. That the separate special accounts heretofore created and established in the Waterworks and Sewerage Fund are hereby continued and maintained, which said accounts are designated as follows: "Operation and Maintenance Account", "Depreciation Account", "Bond and Interest Account", "Bond and Interest Reserve Account" and "Surplus Account", into which there shall be paid on the first business day of each month, without any further official action or direction, all moneys held in the Waterworks and Sewerage Fund of said Village, in accordance with the following provisions:

(a) There shall be paid into the OPERATION AND MAINTENANCE ACCOUNT on the first business day of each month an amount sufficient to pay the reasonable expense of operation, maintenance and repair of said combined waterworks and sewerage system for the next succeeding month, including, without limiting the generality of the foregoing, salaries, wages, costs of materials, supplies, insurance and power.

(b) There shall be paid into the DEPRECIATION ACCOUNT on the first business day of each month after the required payments have been made into the account above referred to, the sum of at least \$325 each month until such account aggregates the sum of \$50,000, and thereafter no additional payments shall be made into said account except that when any money is paid out of such account payments into such account shall be resumed and continued until such account has been restored to the aggregate amount of \$50,000.

The moneys in said account shall be used to pay the cost of such replacements and repairs to the system as may be necessary from time to time for the continued effective and efficient operation of the system, except that the funds held in said account to the extent necessary to prevent or remedy a default in the payment of the interest on or principal of any bonds of said Village which by their terms are payable from the revenues of said combined waterworks and sewerage system shall be used for that purpose and shall be transferred to the Bond and Interest Account, and whenever such an amount is withdrawn from said account and so transferred to said Bond and Interest Account the amount so transferred shall be added to the amount to be next and thereafter paid into said Depreciation Account until full reimbursement to said account has been made. Each expenditure, to be made from the Depreciation Account to pay the cost of necessary replacements and repairs to the system, as above provided for, shall be made only after a consulting engineer employed for that purpose has certified that such expenditure is necessary to the continued effective and efficient operation of the combined waterworks and sewerage system of said Village.

(c) There shall be paid into the BOND AND INTEREST ACCOUNT on the first business day of each month, after the required payments have been made into the accounts above referred to, an amount at least equal to one-sixth of the interest becoming due on all outstanding bonds authorized pursuant to this ordinance and including the interest to become due on all bonds heretofore issued

and hereafter issued and on a parity with the bonds herein authorized, and there shall be paid into the Bond and Interest Account on the first business day of each month an amount at least equal to one-twelfth of the principal of all of said bonds authorized herein and including the principal of bonds heretofore issued and hereafter issued and on a parity with the bonds herein authorized, until there shall have been accumulated in the Bond and Interest Account on or before the day preceding such current maturity date of interest or principal, or both, an amount sufficient to pay such principal or interest, or both, on such current maturity date.

Payments into the Bond and Interest Account may be suspended in any fiscal year at such time as there shall be sufficient money in said account to pay principal and interest for the remainder of such fiscal year, but such payments shall again be resumed at the beginning of the new fiscal year. All moneys in said account shall be used only for the purpose of paying interest and principal on the bonds hereby authorized, and including such bonds heretofore issued and as may be hereafter issued and on a parity with the bonds herein authorized.

Any and all sums received from the purchaser of the bonds as accrued interest thereon to date of delivery shall be paid into said Bond and Interest Account.

(d) There shall be paid into the BOND AND INTEREST RESERVE ACCOUNT on the first business day of each month, after the required payments have been made into the above referred to accounts, the sum of \$250 each month until such account aggregates the sum of \$50,000, and thereafter no additional payments shall be made into such account except that whenever any money is paid out of said account payments into said account shall be resumed and continued until such account has been restored to the aggregate amount of \$50,000, and the Village covenants and agrees to maintain said Bond and Interest Reserve Account throughout the life of said bonds authorized to be issued under the terms of this ordinance and until such time as the moneys deposited in said account are equal to the aggregate amount of all interest and principal requirements to maturity of the then outstanding bonds authorized to be issued under the terms of this ordinance, and thereafter no further payments shall be made into said account.

The moneys in said account shall be used for the payment of the principal and interest of all bonds of said Village authorized pursuant to this ordinance and including such bonds heretofore issued and as may be hereafter issued and on a parity with the bonds herein authorized at any time when there are insufficient funds available in the Bond and Interest Account to pay such principal or interest on such bonds as the same become due.

(e) All moneys remaining in the Waterworks and Sewerage Fund of said Village, as established by this ordinance, after all payments into the respective accounts hereinabove in subparagraphs (a) to (d), inclusive, of this section, required to have been made shall have been made including any deficiencies as hereinabove provided, shall be paid into the SURPLUS ACCOUNT.

At the end of each fiscal year, as established by this ordinance, after having paid into accounts (a) to (d), inclusive, any deficiencies as hereinabove prescribed, not less than fifty per cent (50%) of the remaining amount in said Surplus Account shall be paid into the Bond Redemption Account.

All moneys so deposited shall be held and used only for the purpose of calling and redeeming prior to their maturity any outstanding bonds of said Village which by their terms are payable from the operation of the combined waterworks and sewerage system of said Village as said bonds become redeemable.

The balance of said fund in said Surplus Account may be used for the purpose of repairing, improving, enlarging or extending the combined waterworks and sewerage system of said Village; provided, however, this paragraph shall not be construed to prohibit the Village from ordering and directing that all funds in said Surplus Account in excess of said fifty per cent (50%) be paid into the Bond Redemption Account.

(f) The above specified amount of the monthly payments into the Depreciation Account (b) and the Bond and Interest Reserve Account (d), and the amount above specified as the aggregate amount of each of said accounts, are inclusive of, and not in addition to, the payments required under the provisions of the ordinance heretofore adopted on July 3, 1962, authorizing the issuance of \$315,000 Waterworks and Sewerage Revenue Bonds, dated July 1, 1962.

(g) The moneys in any of the accounts created by subparagraphs (b), (d) and (e), as hereinabove created, maintained and continued, and set forth in this section, may by resolution adopted by the President and Board of Trustees be invested from time to time by the Treasurer of said Village in interest bearing bonds or other direct and general obligations of the United States Government and maturing in not more than five years after the purchase date thereof, and such securities shall be sold from time to time by said Treasurer pursuant to a resolution of the President and Board of Trustees as funds may be needed for the purpose for which said accounts have been created.

All accrued interest on any funds so invested shall first be credited to the Waterworks and Sewerage Fund and then be credited to the account for which the investment was made.

All uninvested money on hand shall be kept separate from all other Village accounts and shall be deposited in banks selected as depositories by the President and Board of Trustees from time to time so as to be available when needed.

Section 10. That it is hereby covenanted and agreed that the revenues of the combined waterworks and sewerage system are to be paid into the various special accounts hereinabove established and created in the order in which said accounts have been listed, and if within any period of time the revenues are insufficient to place the required amounts in any of said accounts the deficiencies shall be made up the following period or periods after payments into all the accounts enjoying a prior claim of revenues have been made in full.

Section 11. That the Village of Antioch covenants and agrees with the holders of said bonds and coupons hereby authorized that, so long as the bonds or any of them remain outstanding and unpaid, either as to principal or interest:

(a) The Village will maintain said combined waterworks and sewerage system and all improvements and extensions thereto in good repair and working order, will operate the same efficiently and will faithfully and punctually perform all duties with respect thereto required by the Constitution and laws of the State of Illinois.

(b) The Village will establish and maintain at all times reasonable fees, charges and rates for all users of the service of said system, and will provide for the collection thereof and for the segregation and application of the revenues of said system in the manner provided by this ordinance, and sufficient at all times to pay the reasonable costs of operation and maintenance, to pay the interest of and principal on all revenue bonds of said Village which by their terms are payable from the revenues of said system, and to provide for the creation and maintenance of the respective accounts as provided in Section 9 of this ordinance, and from time to time make all needful and proper repairs, replacements, additions and

INSURANCE INDUSTRY

REELS FROM

NO - FAULT

INVALIDATION

Supreme Court invalidation of the Illinois no fault statute will cost the insurance industry approximately \$65 millions in losses incurred without offsetting premiums before existing automobile policies reach expiration dates.

The first dollar evaluation of the constitutional impasse over modified no fault insurance was presented by the Illinois Insurance Information Service which estimated also that additional mechanical costs would raise the total bill well over \$75 millions for companies doing business in this state. IIS is the public service arm of the 24 principal property-casualty companies based in Illinois but the dollar estimates covered exposures of all 250 companies writing automobile lines in this state.

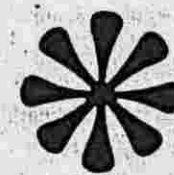

The dollar estimates came in the annual report of Thomas F. Reynolds, general manager of IIS, who said: "The insurance-buying public of Illinois has not grasped the extent to which the property-casualty insurance industry has been exposed to loss" by the invalidation of the statute. He said the deadlock leaves approximately 5,000,000 policies "with what some people refer to as 'free basic no fault' coverage until policies reach normal expiration dates.

"This is the dilemma," the report explained. "On January 1, 1972, the 250 companies which write the policies on approximately 5,000,000 Illinois private passenger cars automatically extended basic no fault coverage without additional premium to buyers of insurance. The Director of Insurance has ruled that these insurance contracts remain in effect until their normal expiration dates although they constitute insurance for which the companies received no compensation of offsetting premium.

"Provision of this premium-free insurance was made possible by a statutory imposition of a rational yardstick for determining 'pain and suffering', established by the Illinois no fault law. But with invalidation of the law, that yardstick formula is destroyed and the industry finds itself without premium compensation or other offset for policies which extend \$2,000 for medical bills, up to \$7,800 per year for income replacement and up to \$4,380 for services reimbursement on each contract," the report continued.

Reynolds said that the industry is fully living up to all no fault contract obligations "despite an exposure unique in the annals of insurance."

"Companies have paid no fault claims in Illinois since the first week of January and continue to do so," he said.

85 YEARS OF SERVICE

Commonwealth Edison Company is now in its 85th year of service to Chicago and northern Illinois. The company was founded as the Chicago Edison Company in 1887—just eight years after Thomas Edison invented the first practical incandescent light bulb.

ORDINANCE NO. 72-4-4

CONTINUED

betterments thereto so that the system may at all times be operated properly and advantageously, and when any equipment or facility shall have been worn out, destroyed or otherwise is insufficient for proper use it shall be promptly replaced or repaired so that the value and efficiency of said system shall be at all times fully maintained.

Charges for service rendered the Village shall be made against said Village, and payment for the same from the corporate funds shall be made monthly into the Waterworks and Sewerage Fund created and continued by this ordinance, as revenues derived from the operation of the combined waterworks and sewerage system in the same manner as other revenues are required to be deposited.

No free service of the system shall be furnished to any person, firm, organization, or corporation, public or private, and, to the extent permitted by law, it is expressly herein covenanted that said Village will not grant a franchise for the operation of any other or competing waterworks system or sewerage system, or combination thereof, within the Village of Antioch, and that the bonds herein authorized to be executed shall constitute legally enforceable liens on the revenues of the combined waterworks and sewerage system of said Village, including all further extensions, additions and improvements thereto, whether acquired through purchase, contract or otherwise.

- (c) The Village will establish such rules and regulations for the control and operation of said system necessary for the efficient and economical operation thereof, and rates and charges shall be fixed and revised from time to time as may be necessary to produce funds sufficient for all purposes herein provided, until all of the bonds authorized by this ordinance have been paid in full, both as to principal and interest.

- (d) The Village will make and keep proper books and accounts (separate and apart from all other books, records and accounts of said Village), in which complete entries shall be made of all transactions relating to said system, and hereby covenants that it will cause the books and accounts of said system to be audited annually by certified public accountants showing the receipts and disbursements on account of said system, and that said audit will be available for inspection by the holders of any of the bonds. Each such audit, in addition to whatever matters may be thought proper by the accountants to be included therein, shall, without limiting the generality of the foregoing, include the following:

- (1) A statement in detail of the income and expenditures of the system for such fiscal year.
- (2) A balance sheet as of the end of such fiscal year.
- (3) The accountant's comment regarding the manner in which the Village has carried out the requirements of this ordinance and the accountant's recommendations for any changes or improvements in the operation of the system.
- (4) A list of all the insurance policies in force at the end of the fiscal year, setting out as to each policy the amount of the policy, the risks covered, the name of the insurer, and the expiration date of the policy.
- (5) The number of properties served by the combined waterworks and sewerage system at the end of the year; the number of metered customers at the end of the year who use both water and sewer services; and the number using only the water services; the number of unmetered customers at the end of the year who use both water and sewer services; and the number using only the water services; the number of customers who use only the sewerage services; and the quantity of water pumped.

All expenses incurred in the making of the audit required by this section shall be regarded and paid as an operation and maintenance expense, and it is further covenanted and agreed that a copy of each such audit shall be furnished to the holder of any of the bonds at his request, and any holder of a bond or bonds authorized under this ordinance shall have the right to discuss with the accountant making the audit the contents of the audit and to ask for any additional information he may reasonably require. Monthly statements of receipts and disbursements of the combined system shall be furnished the President and Board of Trustees, and a copy of the annual audit shall be mailed to the original purchaser of the bonds authorized by this ordinance.

- (e) The Village will not sell, lease, loan, mortgage, or in any manner dispose of or encumber said system (subject to the reserved right of said Village to issue additional obligations as provided in Section 12 hereof), or any improvements and extensions thereto, until all of said bonds hereby authorized shall be paid in full, both principal and interest, or unless and until provision shall have been made for the payment thereof, and that said Village will take no action in relation to said system which would unfavorably affect the security of the bonds or the prompt payment of the principal and interest thereon.
- (f) Any holder of a bond, or bonds, or any of the coupons of any bond, or bonds, issued hereunder, may proceed by civil action to enforce or compel performance by the officials of said Village of all duties required by law and by this ordinance, including the making and collecting of sufficient charges and rates for the water and sewerage services supplied by said system, and the application of the income and revenue therefrom.
- (g) The Village will carry insurance on said system of the kinds and in the amounts which are usually carried by private parties operating similar properties, including, without limiting the generality of the foregoing, fire, windstorm insurance, public liability, and all additional insurance covering such risks as shall be recommended by a competent consulting engineer employed for the purpose of making such recommendation, and all moneys received for loss under such insurance policies shall be deposited in the Depreciation Account and used in making good the loss or damage in respect of which they were paid, either by repairing the property damaged or replacing the property destroyed, and provision for making good such loss or damage shall be made within ninety days from date of loss. The payment of premiums for all insurance policies required under the provisions of this covenant shall be considered an operation and maintenance expense.

The proceeds derived from any and all policies for public liability shall be paid into the Operation and Maintenance Account and used in paying the claims on account of which they were received.

Section 12. That it is hereby covenanted and agreed that, while any of the bonds herein authorized to be issued are outstanding, no additional waterworks and sewerage revenue bonds shall be issued to share ratably and equally in the revenues to be derived from the operation of the combined waterworks and sewerage system of said Village with the revenue bonds herein authorized to be issued, unless the revenues derived from the combined waterworks and sewerage system for the fiscal year then next preceding were sufficient to pay all costs of operation and maintenance, to pay all sums required to be paid up to the date of issue of said additional bonds to the Depreciation Account and Bond and Interest Reserve Account and to pay all bonds theretofore called for prior redemption but not yet redeemed, and leave a balance equal to at least one hundred twenty per cent (120%) of the aggregate of (a) the principal and interest requirements for such year on all bonds then outstanding payable from the revenues of the combined waterworks and sewerage system, (b) one year's interest on the total issue of such additional bonds then proposed to be issued, and (c) an amount of principal of such additional bonds computed

by dividing the total amount of such issue by the number of years from date of issue to the final maturity date of such additional bond issue.

If prior to the payment of any of the bonds hereby authorized it shall be found desirable to refund all or a part of the bonds hereby authorized, said bonds may be refunded notwithstanding the restrictions as to the issuance of additional bonds set forth in this section (with the consent of the holders thereof unless the bonds to be refunded are subject to redemption and provision for call and redemption thereof is duly made), and any refunding bonds so issued shall share ratably and equally in the revenues of said combined waterworks and sewerage system and the pledge thereof under this ordinance with the portion of the bonds hereby authorized which are not refunded; provided, however, that if only a portion of said outstanding bonds are to be refunded at any time such obligations shall not be refunded by bonds bearing interest at a rate greater than the interest rate provided by this ordinance, or maturing at a date earlier than the final maturity of such bonds not refunded.

Section 13. That the provisions of this ordinance shall constitute a contract between the Village of Antioch and the holders of the bonds herein authorized to be issued, and after the issuance of said bonds no changes, additions or alterations of any kind shall be made hereto, except as hereinbefore provided, until all of said bonds and the interest thereon shall have been paid in full, or unless and until provision shall have been made for the payment thereof.

Section 14. That as soon after this ordinance becomes effective as may be, the bonds herein authorized shall be sold by the President and Board of Trustees in such manner as they may hereafter determine; provided, however, that if, the acceptable bidder offers to purchase said bonds bearing interest at a lesser rate than the maximum interest rate hereinabove prescribed in this ordinance, then the President and Board of Trustees shall, upon making the award of sale of said bonds to such bidder, adopt a resolution reducing the interest rates on such bonds in accordance with the terms of the acceptable bid, and such rate or rates being less than the rate hereinabove prescribed in this ordinance, and such bonds shall thereafter be prepared bearing interest at such reduced interest rates in accordance with the resolution confirming sale thereof, and after the execution of said bonds in the manner as herein provided, the same shall then be delivered to the Treasurer of the Village and be by him delivered to the purchaser thereof upon receipt of the purchase price therefor. The resolution to be adopted, and awarding the contract for the sale of said bonds to the purchaser thereof, shall also designate the bank or trust company at which the bonds and interest coupons will be payable.

Section 15. That the proceeds of the sale of the bonds authorized herein, which sale shall be at a selling price such that the interest cost to the municipality shall not exceed seven per cent (7%) per annum computed to maturity according to the standard table of bond values, exclusive of the sum received from the purchaser as accrued interest, shall be deposited by the Village Treasurer in the "Construction Fund Account of the Village of Antioch", which is hereby created, which funds shall be kept separate and apart from all other funds of the municipality and deposited in a bank to be designated by the President and Board of Trustees as the Depository for the funds of said Construction Fund Account. The accrued interest received from the sale of said bonds shall be deposited in the Bond and Interest Account and used for the prompt and punctual payment of the interest on said bonds. Said funds in the "Construction Fund Account of the Village of Antioch" shall be held and used solely to pay the cost of the improvements and extensions as provided for by this ordinance in accordance with the plans and specifications therefor prepared for that purpose, now on file with the Village Clerk and open to inspection by the public, and said funds shall be withdrawn from said Depository from time to time by the Village Treasurer only upon submission by him to said Depository of the following:

- (a) A duplicate of the order signed by the President and Clerk, stating specifically the purpose for which the order is issued and indicating that the payment for which the order is issued has been approved by the President and Board of Trustees of the Village; and
- (b) Each withdrawal of funds by the Treasurer for payment of real estate or easements therein, or for work done, or materials or services supplied in connection with the construction of said project, shall also be accompanied by a certificate executed by the engineer in charge stating the nature of the work completed, or materials or services supplied, or in case of acquisition of real estate or an easement therein the necessity therefor, and the amount due and payable thereon.

Within sixty days after completion of the work in accordance with the plans and specifications therefor, hereinabove referred to in this ordinance, and after all costs have been paid in connection with the construction thereof, the engineers shall certify to the President and Board of Trustees that the work has been completed according to plans and specifications and, upon approval by the President and Board of Trustees of the completion of the work based upon the engineer's certificate, and after all costs have been paid, the President, Clerk and Engineer shall execute a certificate and file it with the Depository certifying that the work has been completed in accordance with the plans and specifications, that all costs have been paid; and if at that time any funds remain in said Construction Fund Account the same shall be transmitted by said Depository to the Treasurer and be by said Treasurer deposited in the Bond and Interest Reserve Account.

The costs of engineering, legal and financial services, the costs of surveys, designs, soundings, borings, rights of way, and all other necessary and incidental expenses shall be deemed items of cost of construction of the project.

Section 16. If any section, paragraph, clause or provision of this ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this ordinance.

Section 17. All ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this ordinance are, to the extent of such conflict, hereby repealed.

Section 18. This ordinance, within ten (10) days after its passage by the President and Board of Trustees and its approval by the President, shall be published once in The Antioch News, being a newspaper published in said Village, and if no petition be filed with the Clerk of said Village within twenty-one (21) days after the publication of this ordinance, signed by fifteen per cent (15%) of the number of electors voting for President of said Village at the last preceding general municipal election at which a President was elected, requesting the submission of the proposition of making the improvements and issuing bonds herein provided for, then this ordinance shall be in full force and effect.

STATE OF ILLINOIS)
COUNTY OF LAKE) SS

I, the undersigned, do hereby certify that I am the duly qualified and acting Clerk of the Village of Antioch, in the County and State aforesaid, and as such Clerk I am the keeper of the records, journals and files of the President and Board of Trustees of said Village.

I do further certify that the attached and foregoing is a full, true and correct copy of an ordinance entitled:

"AN ORDINANCE authorizing and providing for the issue of \$350,000 Waterworks and Sewerage Revenue Bonds, Series of 1972, of the Village of Antioch, Lake County, Illinois, for the purpose of defraying a part of the cost of improving and extending the combined waterworks and sewerage system of said Village, prescribing all the details of said bonds, and providing for the collection, segregation and distribution of the revenue of the combined waterworks and sewerage system of said Village for the purpose of paying the cost of the operation and maintenance thereof, providing an adequate depreciation fund therefor, and paying the principal and interest of said Waterworks and Sewerage Revenue Bonds."

as adopted by the President and Board of Trustees of the Village of Antioch at its regularly convened meeting held on April 26th, 1972, and as signed by the President of said Village on the 26th day of April, 1972, all as appears from the official records of said Village, in my care and custody.

IN WITNESS WHEREOF, I have hereunto affixed my official signature and the corporate seal of said Village of Antioch, Illinois, this 26th day of April, 1972.

Marilyn J. Sterbenz
Village Clerk

May 3, 1972

Soil Stewardship Week

The week of May 7 - 14, 1972, has been designated as SOIL STEWARDSHIP WEEK. During this week, churches of all denominations throughout the county will be reminding Americans of their rich blessings of soil, water, forest, wildlife, and related natural resources.

"CREATIVE CONSERVATION" is the theme of the week, expressing a "stewardship" goal which involves man's interaction in and with natural resources-both as a preserver and user of resources.

Radio-TV stations W.G.N. and W.M.A.Q. will observe this week on their 6:30 A.M. programs, and W.M.A.Q. will also have a program at 12:30 P.M. on Thursday, May 11th. Local conservationists, including Soil Conservation Service and Soil Conservation District personnel, will appear on these programs along with representatives from other participating agencies.

Tim Wright, Executive Director of the Lake County Soil and Water Conservation District, will be a guest on Orion Samuelson's Monday, May 8th program at 6:30 a.m. explaining his role in the Conservation field. For more information on Soil Stewardship Week, contact your local Soil Conservation District office. The office for the Lake-North Cook County area is located at South Old Rand Road and Route No. 12. The telephone numbers are 312-438-6319, 438-5427.

With a Stern Eye

Right in the middle of the 1972 Spring hassle over WHO is going to get enough votes to become County Board Chairman, I had a day off as County Clerk. And even though we spent the first 100 miles discussing the relative merits of Norm Geary, Ron Coles, Frank Peers and George Bell -- after that the miles began to spin a measureless length between me and Waukegan.

We were doing a lunchtime program in Mattoon, my partner and I, and had decided against flying; we have little time together, now that I am County Clerk, and we had weeks of good talk to catch up on. I told Eunice about the blocs on the County Board, about who had how many votes tied up and why this one or that one would never get the required thirteen -- and she told me about her unsuccessful (by a hairline) campaign for Delegate to the Convention. We talked children and books and friends.

The show went well in Mattoon and we had fallen back into the feeling that we were professional entertainers. It was nice -- until we got back as far as Kankakee. The sky was beginning to darken, we were hungry and looking for a place to eat -- but we were also low on gas. I pulled into a Skelley Truck Plaza to fuel up. A young man in a red cap ran out briskly.

"That pump don't work," he said. "Back up to the other one." I turned the key and listened horrified, as the car emitted only a growl, a belch, a click and then -- nothing. Red Cap gasped and ran into the station for reinforcements.

A young man in coveralls came out and gestured for me to start it up. The car made the same unspeakable noise. He raised the hood and gestured again. I repeated the performance. "Battery's dead," he said cryptically.

"How can it be dead?" I asked. "I've been driving all day."

Coveralls looked at Red Cap and shrugged and Red Cap ran again into the station to return with a combed and clean type, briefcase under his arm. "Turn it over," he instructed. I did. This time it sounded as though the fan might tear a hole in the radiator. I stopped.

By then the truck drivers had begun to gather. One who had been systematically kicking the tires on his big Mayflower semi, suggested we

check the water in the battery. They added some. A circle of six or seven, pointing and murmuring to one another, now stood at my front bumper. After a minute, they stopped touching and twanging things. And they stopped looking at us. Eunice finally got out and sidled over close enough to eavesdrop. After a few minutes she came back to report.

"The battery is charged apparently. But no one will say anything. They're treating us like a terminal case."

We watched around the upraised hood for many minutes, and then one by one, they disappeared, each to his own affairs. No one spoke to us. We waited, thinking the upped hood could only mean they were consulting inside about the patient outside. After a long time, Coveralls came back.

"You got bad trouble," he said without meeting my eyes. "If you'd gone any further, the motor would have froze up."

"So what should we do?" There was no answer, and Coveralls went back inside. It was getting cold so we closed the doors. A Smelcer Steel van pulled out behind us and took to the road. The Pilgrim Aluminum rig lined up with twenty or so others at the far end of the lot and the driver went to sleep in the back of the cab.

"Goodnite," called a voice, and we turned to see Briefcase waving cheerily as he got into his car. "We close now -- it's six o'clock". And he drove off to loving family and hot dinner. "Miserable wretch!" I called after him. He laughed. And accelerated.

The sun set wearily. We got out to walk around, for warmth and to see if there were any live ones inside or out. There weren't. Then, just as we were climbing despondently back into the car a voice said: "You girls having trouble?"

It was the 'you girls' I suspect, that won us first. But also it was the fact that as the young man in the green shirt listened to the throaty gargle in our dying motor, his face lit up with eager challenge. He disappeared into the bowels of the Cougar and all we could hear was scraping and tapping. It was reassuring.

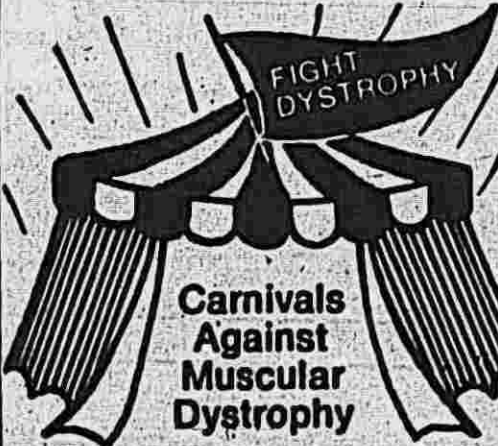

After about five minutes he put his head up: "Yer stahtuh isn't catchin' " he said judiciously. "And yer liftuhs could use lookin' at." We smiled adoringly. "I'm from Rhode Island," he said, "and I'm a mechanic." We beamed.

After another five, he and a friend had pushed and jollied us till the motor caught, and after refusing to take a dime, they waved us off into the darkness. We never missed a beat the rest of the way. Nor did we turn off the motor, even when we went in for dinner.

"It's been a vacation from life," I sighed later, "the whole day."

"And a vacation from identity," said E.

BELL EXPANDS "SNIP-AND-TAKE"

PLAN

Illinois Bell Telephone has expanded its "snip-and-take" customer telephone removal plan to include most customers who are moving out of the company's operating territory.

The "snip-and-take" plan gives residential customers a \$5 credit on their phone bills if they remove the phones themselves when they move. The difference between the two plans is how the customer returns the phones to the company.

Under the original plan, a customer moving within Illinois Bell territory gives the phones to the installer when he connects service at the customer's new home.

Under the expanded plan, which became effective April 10, a customer moving out of Illinois Bell territory has to drop the phones off at a designated Illinois Bell business office to receive his \$5 credit.

Most desk sets and Trimline wallphones are eligible for the credit. Certain sets are excluded such as panel and standard wallphones. Illinois Bell asks all customers to call the business office before moving to determine whether the instruments are eligible for the credit and how to return the phones to the company.

Mrs. Bernice Soladay, Antioch, left, Mrs. Magda Brown, Skokie, and Mrs. Synobia Payne, Chicago, discuss health care problems in Illinois with John Dailey, special assistant to Gov. Richard B. Ogilvie. Mrs. Soladay was re-elected recording secretary, Mrs. Brown treasurer and Mrs. Payne speaker of the House of Delegates of the Illinois Society, American Association of Medical Assistants, earlier this week in Gurnee. Dailey presented a proclamation designating April 21-27 as "Medical Assistants Week in Illinois."

Scholastic Achievement

Two thousand two hundred fifteen undergraduate students at Western Illinois University have been cited for their scholastic achievement during the winter quarter.

Among them are: Charles P. Geist, R.R.1, Antioch - freshman, both; and Cheryl Lynn-Alberts, 610 Piper Lane, Lake Villa - junior, quarterly. They are being honored for

either compiling a cumulative or quarterly grade-point average of 3.3 or better, or for compiling both, all based on 4.0 equals straight A.

Students must attempt at least 12 quarter hours for a letter grade to be eligible; pass-fail hours are not counted in the compilation as hours attempted.

Physicians Feel Mandatory Eye Exams Unnecessary

Proposed state legislation requiring eye examinations of school children by optometrists or ophthalmologists would mean "needless expenses of more than \$7 million a year for parents," the state's top medical spokesman said here today.

The proposed visual examinations are both "unnecessary and impractical," according to Dr. Frank J. Jirka, Jr., River Forest, president of the Illinois State Medical Society.

Also opposed to the bill are the Illinois Association of Ophthalmology, the Illinois Academy of Pediatrics, the Illinois Pediatric Coordinating Council and the Illinois Academy of Family Physicians.

The proposed legislation, House Bill 2033, sponsored by Rep. Raymond J. Kahoun, R-Chicago, was approved by the House and has been sent to the Senate Labor and Commerce Committee.

Dr. Jirka said most school districts have been conducting

free vision screening examinations for several years and a bill making the vision-screening system mandatory was signed into law last Aug. 4. All schools will have screening by September, 1972, and give free screening tests to students entering kindergarten, first, fifth and ninth grades as part of the regular physical exam program.

"House Bill 2033 will pre-empt the vision-screening program and mandate separate eye examinations costing \$15 or more, Dr. Jirka said. "This means parents will pay about \$7 million and the Illinois Department of Public Aid about \$1.1 million each year."

Three of four children have no visual defects, Dr. Jirka said, and under the present program children who do have problems are referred to optometrists or ophthalmologists for help.

"Why should the parents of children who do not have visual problems be forced to periodically pay \$15 or more for an unnecessary eye examination?" Dr. Jirka said.

The SBA Today

It has been my pleasure in recent weeks to travel throughout Illinois for the purpose of announcing an exciting expansion of activity by the Small Business Administration.

It is an expansion which will take SBA well beyond the role of a lending agency and, indeed, beyond our areas of responsibility in the fields of management assistance and contract procurement.

To be specific, the Small Business Administration has embarked on a program through which it will serve as the ombudsman for the little guy -- the small businessman.

SBA is doing so at the specific request of the President.

As he put it:

"I am directing the Small Business Administration to emphasize its role as the advocate of the interest of small business. Henceforth, the SBA shall be more than a lending agency, more than a management assistance agency, more than a contract procurement agency."

The President is well aware of the fact that the average small businessman, because of his smallness, cannot afford to be represented by high-priced counsel or by large trade organizations.

Thus the small businessman is left by himself to find his way through the maze which government can be.

It is to this role of advocacy, this role of being an ombudsman, this role of helping the little guy find an answer from government that the Small Business Administration now is addressing itself.

The program will operate in this manner.

Representatives of the SBA -- we call them circuit riders -- visit eight Illinois cities on a once-a-month basis. The cities are Peoria, Rockford, Rock Island, East St. Louis, Carbondale, Centralia, Champaign, and Quincy.

Previously these circuit riders devoted their time to helping the small businessman of the area involved in

financing, management assistance, and the procurement of federal contracts.

Now, though, these circuit riders may in addition be considered SBA ombudsmen.

Any small businessman having difficulty getting something done in government at any level -- federal, state, or local -- is encouraged to come to one of these ombudsmen and to tell him his problems.

And, when our circuit rider is not in a particular city, small businessmen are encouraged in all instances except Rock Island, to visit the local Chamber of Commerce, obtain a form which the staff of the chamber will have, and then send that form, outlining the problem, to the SBA office in Chicago. In Rock Island, forms may be obtained at the offices of the County Board of Supervisors.

Once the problem of the small businessman is made known to SBA, it will be channeled to the appropriate governmental agency -- federal, state, or local -- for action.

Quite obviously, we cannot guarantee results in each and every instance. But we can and do guarantee a dedicated effort to even better serve the small businessmen of Illinois.

We encourage them to seek our aid.

Have you a question about the Small Business Administration or any of its programming? If so, write Public Information Office, Small Business Administration, 219 S. Dearborn St., Chicago 60604.

Folk singer Betty Frank, star of benefit concerts in Waukegan this weekend.

"Your Child & His Eyes. .. You & HB 2033"

The eyes are perhaps the most important of all senses for the learning ability of school children, yet they have been the most neglected.

Since 1961 the Illinois School Code has spelled out the requirements for health examinations; physical, dental, foot and vision are to be tested at four year intervals. To ensure compliance there are separate examination forms to be completed by doctors. WITH THE EXCEPTION OF THE VISION FORM, the children receive benefit of trained physicians, dentists and podiatrists examining and evaluating the particular area of health ON EACH AND EVERY STUDENT. This is not so with the eyes...each child is not examined by his family optometrist or ophthalmologist. Instead, from time to time a school nurse, teacher, parent or other well meaning person will recommend an examination after using letters on a wall chart or machine. These people have had good intentions and their efforts have been appreciated, but they can only observe the obvious in a few children and furthermore they do not have the necessary formal training to determine which of the children should see their vision specialist.

The failing of the present

method has demonstrated its shortcomings; diseased eyes, poor focusing, imbalance of eye muscles, crossed eyes, impaired neuro-muscular development, frequent lack of scholastic incentive...dislike of school, poor grades, dropping out... and so on.

YOUR CHILD, AND EVERY CHILD IS ENTITLED TO THE BEST OF HEALTH, CARE AND USE OF HIS EYES--

In order to make sure that each child is examined by those professionals trained and licensed for that purpose--optometrists and ophthalmologists--your state senator in Springfield should be contacted as soon as possible to vote for favorable passage of HB 2033 which was overwhelmingly passed by the House last fall.

BOAT SAFETY

The Federal Boat Safety Act of 1971 (PL 92-75) Section 13 states - If a Coast Guard Boarding Officer observes a boat being used without sufficient lifesaving or firefighting devices or in an overloaded or other unsafe condition as defined in Regulations of The Secretary (of the Department in which the Coast Guard is operating), and in his judgment such use creates an especially hazardous condition, he may direct the operator to take whatever immediate and reasonable steps would be necessary for the safety of those aboard the vessel, including directing the operator to return to mooring and to remain there until the situation creating the hazard is corrected or ended.

Your boat is being boarded to determine if the above authority provided to the Coast Guard should be used to insure the safety of the persons

on your boat.

Your Boarding Officer is specifically trained and authorized to perform this function. He will not unnecessarily interrupt your boating pleasure, but he must be assured of your safety. Your cooperation will aid considerably in reducing the amount of time required.

Should any violation of federal equipment requirements be observed and, in the Boarding Officer's judgment, such deficiency creates an especially hazardous condition to the occupants of the boat, you will be directed to take specific steps to correct the unsafe condition. Immediate compliance is required for safety purposes.

Failure to comply with the directions of the Boarding Officer will result in a citation for use of the boat in a (grossly) negligent manner so as to endanger life, limb, or property of a person, as well as the specific violations which created the unsafe condition. This could result in prosecution in a Federal Court resulting in a sentence of up to one (1) year in jail and \$1000 fine.

FREE MOTORBOAT EXAMINATIONS

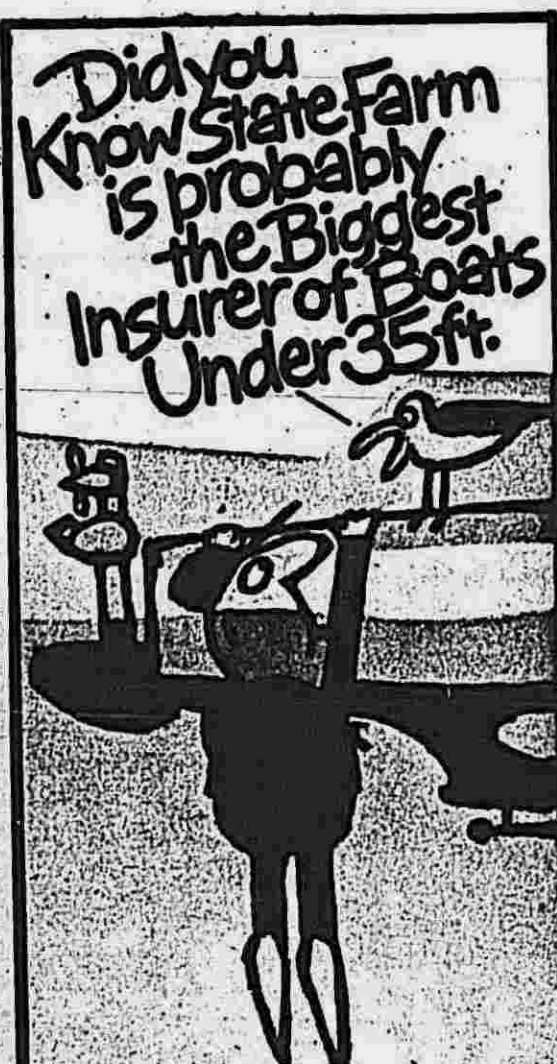

Engine or equipment failure accounts for about 60% of the Coast Guard's search and rescue missions. In early spring when the weather is at best unpredictable, it is wise to make sure your boat is in its best possible working condition before you put it in the water. Waiting several hours for help in April or May is a lot more dangerous than waiting for help in July. Although both are dangerous and can be prevented, spring presents the additional problems of exposure to snow, wind, ice and low temperatures.

Most of the trouble can be

prevented by pre-season maintenance and other proper precautionary measures. Following manufacturer's recommendations and keeping your boat and engine in good repair will help to make your boating trouble free.

A pamphlet called "Emergency Repairs Afloat, (CG-151)" can be obtained by writing to Commander (b), United States Coast Guard, 1240 E. 9th St., Cleveland, Ohio 44199.

To find out if your boat meets high standards of safety and has all the equipment required by law, ask a qualified member of the Coast Guard Auxiliary for a Courtesy Motorboat Examination. This examination is free and there is no obligation or penalty for failure. In addition, your boat is checked for safety items that are not required by law.

A State Farm Boatowners Policy insures your boat, motor and trailer and protects you against liability lawsuits. At low, low cost. State Farm is all you need to know about insurance. Call me.

POLLUTION TOLERANT

Grows almost anywhere is an accurate description of this plant — dwarf annual vinca. It thrives under adverse conditions that would make other plants give up the ghost.

Just because it looks like something from the tropics gardeners do not realize how utterly satisfactory dwarf vinca is to grow. It thrives almost anywhere. It is tolerant of pollution so can be used close to the road. It is capable of standing extreme heat, drought, and other adverse conditions.

And it has no insect pests or diseases that bother it. Wouldn't you think that every gardener would be growing it?

You can plant dwarf vinca in sun or in semi-shade — it will produce its shiny, deep green foliage and profuse bloom in either location.

Flowers may be rose, light pink, pure white or white with red centers, called "eyes".

Plant the slow-growing seeds outdoors after soil has warmed or indoors for earlier bloom.

Rowan & Martin sign for '72 Wisconsin State Fair

The most successful comedy team in show business has been signed to appear at the 1972 Wisconsin State Fair! Fair Manager, Roy Ullius, announced today that Dan Rowan and Dick Martin, creators and stars of NBC-TV's "Laugh-In", will headline two free grandstand shows, at 6:00 and 8:30 P.M., on Saturday and Sunday, August 12-13. This year's State Fair, "The Happiest Time Of The Year", will run from August 11th through the 20th.

Rowan and Martin have

been together for 20 years, beginning as a stand-up comedy act in a small Albuquerque supper club. They "paid their dues" for four years on the tough night club circuit. By 1957 they moved into the better clubs, with successful engagements at such name spots as the Sands in Las Vegas, the Copa, Coconut Grove, and the Chez Paris. From 1961 to 1966 they were in great demand as guests on the Johnny Carson, Merv Griffin, Joey Bishop and Mike Douglas shows. A shot as

summer replacement for Dean Martin in 1966 led to their "Laugh-In" show.

Rowan and Martin's signing leaves just two nights still to be filled in the State Fair's line up of grandstand shows. Starts who were signed earlier, include: Kenny Rogers and the First Edition, August 11th; Carol Channing, August 14-15th; and Chet Atkins, Floyd Cramer, and Boots Randolph, August 16-17th.

11th annual Tell Art Fair Planned in New Glarus

The Wilhelm Tell Outdoor Art Fair will be staged for the 11th consecutive year at the village park in New Glarus, Wis., on Sunday, September 3, during the annual "Wilhelm Tell" drama and weekend festival there.

The outdoor art fair, which is open to professional and amateur artists, will feature more than \$900 in prizes.

The awards will be announced during the

afternoon, after judging is completed.

During the 1972 Tell Art Fair, entries will be limited to 250 artists.

The fair will be in session from 10 a.m. to 7 p.m., but artists may begin installing their displays at 9 a.m. Entry fee is \$5 per artist, with no limit on the number of pieces shown.

No sales commissions are

charged, and no refunds will be made. This year, no rain date is scheduled.

During the 1971 art fair, 265 artists exhibited their works, and sales were more than \$11,000. The fair is open to the public without an admission charge. Proceeds from the fair are used for student scholarships to art camps, to assemble a permanent art collection for the village, to promote art appreciation in New Glarus, and other projects.

Deadline for obtaining application blanks is August 15. They may be obtained by writing: Tell Art Fair Committee, New Glarus, Wis. 53574.

All work exhibited at the Tell Art Fair must be completely original, with no commercially manufactured parts except chains on jewelry. Craft items must be individually designed. Each artist is assigned approximately 15 feet of snow-fencing for display, but tables, boxes or crates must be provided by the artists. Each is responsible for hanging and removing his works during the show.

Artists are encouraged to bring materials and work at their art during the show.

The Swiss of New Glarus will present Schiller's classic drama, "Wilhelm Tell" this year in the English language on Saturday and Monday, Sept. 2 and 4, and in the original German on Sunday, Sept. 3. The dramas begin at 1 p.m. each day.

IDEAS for EASY TRAILERING...

Anyone who has ever tried backing a trailer into a limited space knows that some practice is necessary before taking off cross-country. (For example, it's very difficult to back a trailer with a right hand turn, unless there is extra help on hand to guide the driver with hand signals.) Experienced trailer owners back up with a left-hand turn so they can guide the trailer just by looking out the driver's window.

No matter what size trailer you buy or rent, a good solid trailer hitch is essential. Bumper hitches are not suitable for trailers weighing more than 500 pounds. Frame hitches, either welded or bolted directly to your car's frame, are preferable for all but the very lightest trailers. Equalizing hitches distribute the load more evenly over both car and trailer axles. Because state requirements vary, it's a good idea to check into the towing regulations of states in which you plan to travel.

Abbott Earnings Reported

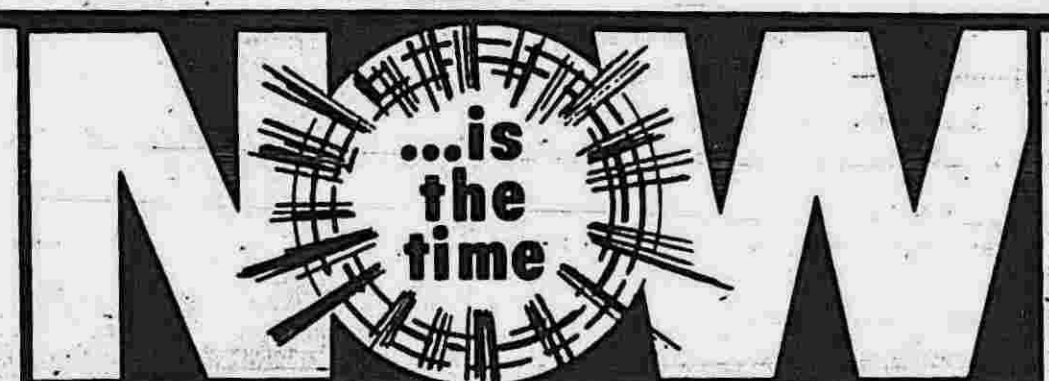

Abbott Laboratories has signed contracts to supply intravenous solutions to customers whose solutions purchases on an annual basis should equal about 70 percent of the company's former volume in this market, Abbott president E. J. Ledder reported to shareholders at the annual meeting here today.

Earlier this month, Abbott reported first quarter earnings of \$9.2 million, or 67 cents a

share, up 97 percent from the \$4.6 million, or 34 cents a share, reported a year earlier, when the company suffered the initial impact of a recall of its U.S.-produced intravenous solutions. Sales for the first quarter were \$120.4 million, up 10.8 percent from the \$108.7 million reported a year earlier.

During the annual meeting, shareholders also re-elected the company's 14 incumbent

directors, and ratified the appointment of Arthur Andersen & Co. as independent auditors for Abbott.

If You're Still Thinking About Closet Cleaning - Think About This!

1. If you're storing at home we have moth proofed storage bags which hold 3 or more garments for 50 cents each.
2. If you'd like to get excess clothing out of your home - we do not charge for storage, only for the bags needed to hold your clothing, (which you keep).
3. Minor repairs are always free on clothing brought to us for cleaning.
4. You can Bulk clean and store (\$3.00 per 8lbs. + bags).

NOW YOU HAVE TO GET BUSY!

Across from Barnstables

Water still cold, DANGEROUS

Every year, more than 4,000 Americans drown who never expected to get even a little wet.

Somehow, they fall into water. Early spring boaters and fishermen who fall in are in special danger, because even strong swimmers soon lose the capacity to move arms and legs in cold water, according to the American Red Cross.

"Lake Michigan is not warm until August, and even then, it seldom reaches optimum swimming temperature," Dr. J. Jan gund, volunteer chairman at Mid-America chapter Red Cross water safety programs, said recently. "Many drowning deaths in April and May can be blamed on the inability of the victims to save themselves. This can happen in a matter of minutes. Loss of body heat in cold water occurs at two to four times the rate in air at the same temperature," Dr. Gund said.

Red Cross recommends that boaters and fishermen wear two or three suits of thermal underwear and other suitable clothing as protection in case of prolonged cold water immersion. The type of suits worn by scuba divers are good in these situations.

"Get out of cold water fast," Dr. Gund said. "Normally, the Red Cross advises hanging on to a swamped or capsized boat, but exceptions to this rule are if the water is cold or the accident occurs near rapids or falls. Swim to the nearest point of safety - shore or another boat - with, or at right angles to the current, using an armstroke with an underwater recover," she said.

A victim taken from cold water should be brought into a warm room as quickly as possible. Wet or frozen clothing and anything that is constricting should be removed.

The victim should be rewarmed rapidly by being wrapped in warm blankets or placed in a tub of water that is warm but not hot to the rescuer's hand or forearm. If the victim is conscious, he should be given hot liquids but nothing alcoholic. He should be dried thoroughly if water is used to rewarm him.

"Medical aid should be obtained as soon as possible," Dr. Gund concluded.

BEAUTY FUN TIME-Gagewood Lions Club's Las Vegas Night Chairman, John Michaelson, is surrounded by bevy of beauty. Girls are part of Peggy Leah dancers from Grayslake, who will be performing as part of the floor show for the 13th annual show, which will be held Saturday, May 6, beginning at 6 p.m. at Gurnee Legion Hall. Girls, from left, are Carrie Shephard, Karen Jensen, Penny Johnson, Leslie Stang, and Kathy Gies.

The program consists of smorgasbord, dancing, games and entertainment.

The project is part of the Lions Club's program to raise funds to help the blind and continue community service.

Antioch Swimmers Topple Records

At the Waukegan YMCA, the record books for the swim team will have to be re-written after this past weekend's performance by team members. Twenty-five team records tumbled and two were tied. Three all teams pool records were broken and one of these tied.

Triple winners in team records from Antioch were John Schmidt, 20 yd. free (12.0), fly (14.5), and 40 yd. free (28.0). His sister Jenny, not to be outdone kept up the record-breaking with records in the 80 yd. ind. medley (1:07.6), 40 yd. fly (30.7), 40 yd. breast (34.9).

In addition Judy Houghton (9/10) set a record in 40 yd. back (35.4).

A total of 75 boys and girls took part in the semi-annual record-breaker meet.

Final results of the Antioch swimmers were: **BOYS:** Cadets (8 & under) 20 yd. free-I-John Schmidt, 2-Ted White, 4-Craig White; 20 yd. fly I-J. Schmidt, 2-T. Bessette, 3-T. White; 40 yd. free-I-J. Schmidt, 2-T. White, 3-G. Bessette, 20 yd.

back-2-G. Bessette, 3-T. Bessette, (17.3); 20 yd. breast-2-C. White, 3-T. Bessette. Preps (11/12): 80 yd. ind. medly-1-Jerry Schmidt (1:03.3); 40 yd. free-2-J. Schmidt, 4-C. Auxier, (24.3). 40 yd. fly-I-J. Schmidt, 2-J. Fields, (30.9). 100 yd. free-2-C. Auxier, (1:19.5); 40 yd. back-2-F. Bessette, 3-C. Auxier, 4-J. Fields, (31.2); 40 yd. breast-2-F. Bessette, (32.7).

Juniors (13/14) 160 yd. ind. medley 2-J. Schmidt, (1:21.0).

GIRLS: Midgets: 80 yd. ind. medley I J. Schmidt, 3-J. Houghton; fly-I-J. Schmidt; 40 yd. back-I-J. Houghton; 40 yd. breast -I-J. Schmidt, 2-J.Houghton. Preps: 80 yd. ind. medley-I-M. St.Pierre, 3-E. Auxier, (1:02.4); 40 yd. free 2-E. Auxier, 3-K. Mandehr, (22.4); 40 yd. fly - 2-K. Mandehr, 3-E. Auxier, (28.2); 100 yd. free-I-M. St.Pierre, 3-K. Mandehr, (1:11.9); 40 yd. back-I-M. St.Pierre. Juniors: 100 yd. free-2-J. Fields, (1:07.7); 100 yd. back-2-K. Klopp, (1:18.4); 100 yd. breast-2-J. Fields, 3-K. Klopp, (1:36.6); 40 yd. free-2-J. Fields, 3-K.Klopp, (23.1).

Babe Ruth League Gets Underway

Antioch Babe Ruth League announced their new Divisional Leagues as follows:

NATIONAL

Medics; Dairy Queen;

Walsh's All Seasons.

AMERICAN

Advertisers; State Bank;

Shure Fire.

New to the league this year as a sponsor is Walsh's All Seasons and the manager, Tom Brophy. Tom has previous experience in Little League.

Bill Underhill volunteered to manage the 1972 Babe Ruth Tournament Team. Under his direction the '71 Tournament Team brought home a First Place District Trophy. Tom Brophy volunteered to manage the Babe Ruth 13 year old team.

Jim's Phillip's 66 Service Station at the corners of Main and Orchard donated his station and facilities on June 10th from 8 a.m. to 5 p.m. for

a car wash. The Babe Ruth League boys will supply the muscle and will hand wash cars for \$1.25. The money will go towards paying this year's expenses.

Because of the critical financial situation at the Antioch High School a charge was made for using the High School Baseball Diamonds this summer. The money for this charge was donated by Mr. William E. Brook of the State Bank of Antioch.

All boys new to the Babe Ruth League should be at the Antioch High School on Saturday May 6th from 12:00 to 4:00 p.m. for tryouts.

Babe Ruth needs help! Help from this community and it's people. It needs their time and labor, cash donations and land for a future Babe Ruth Park. If you can contribute to any of this please call Dick Witt, 395-1089 or 395-0381.

ILLINOIS TRYING TO REMOVE PERSONAL PROPERTY TAX

How often have you heard it said that "You never really get rid of a tax," or "If they take it off somewhere, there is always an increase somewhere else?"

Illinois has now succeeded in putting the final touches on a genuine tax removal with no replacement tax, no prospect of re-imposing the tax, and absolutely no tricks up the sleeve.

The Illinois department of local government affairs has just completed the payment of \$5.6 million to local governments to compensate for the removal of personal property tax on the family car and household furniture.

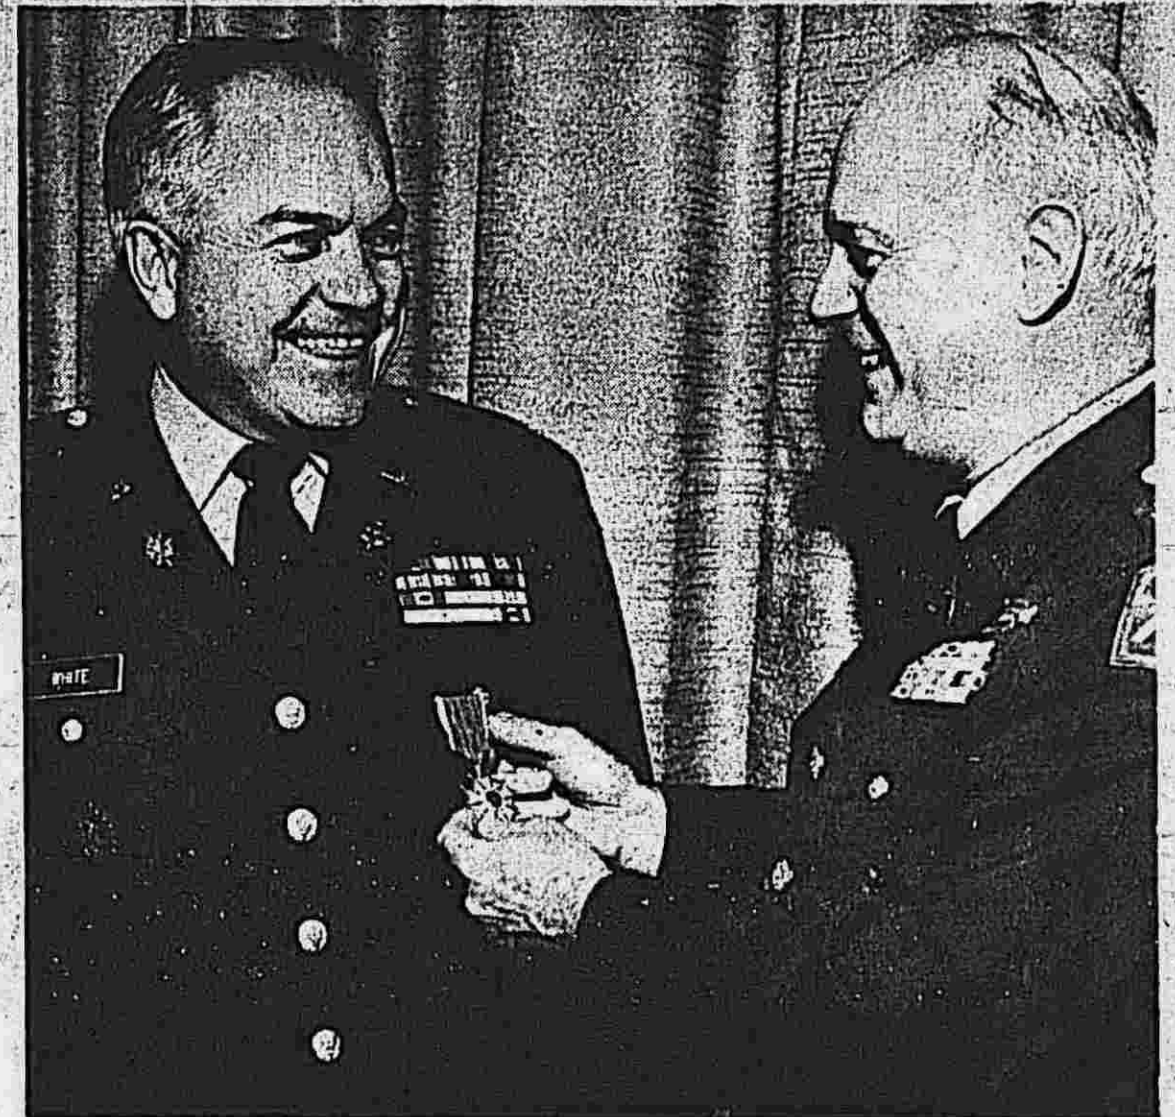

Sen. Robert Coulson of Waukegan, chief sponsor of the original tax removal, now has a bill pending to re-enact the exemption as a classification "just to nail it down against judicial assault."

"Thousands of Illinois residents will have a reduction of \$30 to \$100 in this year's tax bill, and some will be entirely exempt from the personal property tax," Coulson says. "And the significant thing is that the whole process has not caused an increase in any other tax and local governments have suffered no revenue losses!"

CONSERVATION AND ENVIRONMENTAL WORKSHOP

The Lake County Soil and Water Conservation District is sponsoring a high school student in the Conservation and Environmental Workshop at Northern Illinois University Lorado Taft Field Campus, Oregon, Illinois, on August 6 - 11. Students in this program will receive a broad introduction to the scope, problems and benefits of conservation and environmental activities that are constantly facing Illinois citizens. The areas to study will include ecology, nature, pollution, wildlife management, conservation law, population control, and increasing urbanization. Besides classroom instruction, the natural resources and facilities of the surrounding area will be used for on-site instruction.

Any interested high school sophomore, junior, or senior who would like to attend the Workshop, write or call the

Colonel William W. White (l) receives the Legion of Merit awarded him for service as Commanding Officer, Intelligence Support Detachment, Directorate of Intelligence and as Deputy Director of Foreign Liaison Directorate, office of the Assistant Chief of Staff for Intelligence, Department of the Army, Washington, D.C., during the period April 1968 to November 1971. Ceremony is being conducted by Colonel Richard M. Leonard, Commanding Officer, Fort Sheridan. Co. White is currently assigned as Director of Personnel and Community Activities, Fort Sheridan. Ceremony is being conducted in Col. Leonard's office.

COLONEL WILLIAM W. WHITE

Colonel William W. White of Fort Sheridan, Illinois recently received the Legion of Merit medal in a presentation ceremony at the Post. The Post Commander, Colonel Richard M. Leonard, presented the medal during a formal meeting of all the Fort Sheridan staff officers.

The Legion of Merit medal was awarded for outstanding service performed by Colonel White in Washington, D.C. as commanding officer of the Intelligence Support Detachment, Directorate in the office of the Assistant Chief of Staff for Intelligence, Department of the Army, during the period April 1968 to November 1971.

Colonel White has had a distinguished career in the Army. He served in the European Theater of Operations during World War II. In September 1950, he was recalled to active military duty as a private first class for the Korean conflict where he received a field commission to second lieutenant in May 1951.

After his tour of duty in Korea, Colonel White served from 1954 to 1958 in stateside assignments. He was then transferred to Europe for three years. His last overseas service was in Vietnam where he was stationed from 1965 to 1968.

Lake County Soil and Water Conservation District, P. O. Box 555, Lake Zurich, Illinois 60047, before May 10th. Phone: 438-6319, or 438-5427.

Upon his return, Colonel White served in Washington, D.C. where he was promoted to colonel in July 1971. In December of last year he was transferred to Fort Sheridan where he is currently assigned as the Director of Personnel and Community Activities.

In addition to the Legion of Merit Medal, Colonel White's decorations include Bronze Star Medal with First Oak Leaf Cluster; Army Commendation Medal; Service Medals from World War II, Korea and Vietnam. He earned five campaign battle stars each from the Korean and Vietnam conflicts.

Colonel White, a native of this area, is the son of William W. White who now lives in Salem, Wisconsin. He was reared on a dairy farm in Bristol Township, Kenosha County. He was graduated from Antioch High School in Antioch, Illinois. He is scheduled to retire from the Army in July 1973.

Speedway Opens After 7 Postponements

The Waukegan Speedway finally got its 1972 stock car season under way Sunday night after a record seven consecutive postponements. The season will continue on Saturday and Sunday nights with the first race at 8 p.m.

Ray Freeman of Crete won the 30 lap late model feature race leading all of the way from his outside pole starting position. Ted Richter of North Chicago turned in a clean sweep in the hobby class over 30 other drivers.

Saturday's races almost were run as a large field of cars were signed in and practicing from 4 p.m., however light showers started at time trial time and after a long wait the races had to be called.

Waukegan favorites Tom Jones of Northbrook and Ray Young of Dolton furnished the excitement in the feature race as they diced throughout the race ending up in second and third place respectively. Young took second from Bob Roper of Chicago in the 6th lap and Jones was right behind.

In the 18th lap Jones edged past Young, but Young was back in second three laps later. The red flag flew in the 25th lap when Dennis Johnson of Skokie spun and stalled on the track.

Freeman lost nearly a quarter lap lead at that point, but opened up a small margin at the checkered flag. Meanwhile Jones shot by Young at the restart and then held on for second. Lee Schuler of Lockport finished in fourth spot ahead of Roper, Dick Nelson of Chicago, Jacques Terrault of Lake Villa and Tom Musgrave of Mundelein.

Musgrave, son of veteran

Elmer Musgrave, scored his first career win here as he bested Nelson and Jones in the trophy dash for the six fastest qualifiers.

Bob Delaney of Kenneyville furnished some extra excitement in the 2nd late model heat as he lost his left front wheel and then ran over it flipping into the fence in the fourth turn. He was not hurt but the car was out for the night.

The third heat for late models also had its share of excitement as Cheryl Arndt of Oak Creek and Floyd Burdick of Racine tangled on the homestretch with Arndt's Chevelle climbing the concrete wall and skidding to a halt below the starter's stand. Both of these cars were out for the rest of the night.

The late model heats were dominated by Lake County drivers as Lou Clavey of Deerfield won the first, Terrault picked up the second and Waukegan's Pete Brewer was the victor in the third. Jones led the qualifiers with a 14.66 lap.

Richter was the quickest hobby qualifier with a :16.69 lap. He then won the third heat and the feature event. Bob Klemm of Gurnee was second in the main and George Dukas of Zion finished third.

The closest hobby race came in the second heat as Randy Kruse of Northbrook and Jerry Hacker of North Chicago switched for the lead in the final laps. Kruse gained the lead again in the final lap and the two cars locked together and scrapped the wall down the homestretch, finishing in a trail of sparks.

The Waukegan Speedway

will be racing next weekend with 30 Lap late model features scheduled for both Saturday and Sunday nights. Gates will open at 6:00 p.m. with the first race at 8:00 p.m. The Speedway's weather phone number is (312) 662-8200

SUMMARY-APRIL 30TH

LATE MODEL SUPER STOCKS:

Qualifications - Tom Jones, Northbrook (:14.66); Lee Schuler, Lockport (:14.88); Bob Anzinger, McHenry (:15.01); Ray Young, Dolton (:15.03).

Trophy Dash - 1.32.69 - Tom Musgrave, Mundelein; Dick Nelson, Chicago; Tom Jones, Lee Schuler.

First Heat - 2:38.84 - Lou Clavey, Deerfield; Ray Freeman, Crete; Bud Kaye, Blue Island; Chuck Chadwick, Lake Zurich.

Second Heat - 2:31.31 - Jacques Terrault, Lake Villa; Tome Jones; Bob Roper, Chicago; Lee Schuler.

Third Heat - Pete Brewer, Waukegan; Dick Nelson, Ray Young, Tom Musgrave.

Feature, 30 laps - Ray Freeman; Tom Jones; Ray Young; Lee Schuler; Bob Roper; Dick Nelson.

HOBBY STOCK CAR DIVISION:

Qualifications - Ted Richter, No. Chicago. (:16.69); Bob Klemm, Gurnee (:16.72); Bill Chism, Wildwood (:16.73).

Trophy Dash - 1:40.85 - George Dukas, Zion; Gene Pennington, No. Chicago; Bob Klemm; Joe Horn, No. Chicago.

First Heat - 2:45.14 - Larry Cartwright, Zion; Gerald Warrens, Wildwood; Bob Kowalke, Mundelein; Randy Peters, Mundelein.

Second Heat - 2:28.89 - Randy Kruse, Northbrook; Jerry Hacker, No. Chicago; Dave Decker, Waukegan; Sonny Sears, No. Chicago.

Third Heat - 2:31.31 - Ted Richter; Roger Hacke, Waukegan; Bob Klemm; Gene Pennington.

Consolation - 2:35.23 - Tom Gardner, Waukegan; Gerald Warrens, Zion; Larry Cartwright; Homer Scott, Zion.

Feature, 12 laps - Ted Richter; Bob Klemm; George Dukas; Joe Horn; George Garrett, Zion; Gene Pennington.

Semi Pro Football In Niles

Semi-professional football is coming to Niles in 1972!

The Austin Bears, winners of Chicago and semi-professional football titles in eight of the last nine years, have recently completed plans to move their franchise to Niles.

"We're calling the team the Niles Saints," explained Tom Quinlan, president of the club, "and arrangements have already been made to play our home games at Notre Dame High School of Niles."

The Saints will play in the Bears place this fall in the tough Chicagoland Football League, competing against such formidable teams as the Berwyn Barons, the Northlake Lions and the Mt. Greenwood Bulls.

"We think we'll bring alot of excitement to the Niles area," Quinlan said. "We have a nucleus of about 20 players from the former champion Bears, and hope to improve the

team by attracting local talent to our roster."

A spring player-meeting and light work-out has been scheduled for 11:00 a.m. Sunday, May 7, at the Notre Dame High School practice field.

"All men interested in playing for the Saints are invited to attend," Quinlan continued, "We're planning to hold formal tryouts in August, but would like to get to know who's interested as early as possible."

Quinlan concluded by saying that "semi-professional football will add a new dimension and prestige to Niles, and the entire Northwest Suburban area. It will also provide entertainment for fans who can't get tickets to the Chicago Bears games. But, most importantly, it will give some good athletes the opportunity to continue playing football -- some pretty tough football."

Sunday Rain Date

Saves Geneva Action

Ron Marish, Milwaukee supermodified stock car drivers, drove his winged car to victory in the 25 lap feature race at the Lake Geneva Raceway on Sunday night. The Sunday action fillid in for the postponed regular Saturday night race cancelled due to rain. The win was the first for Marish in the modifieds in four years of racing. He started

inside in the 3rd row and took the lead from John Garner, Milwaukee on the 8th lap.

Johnny Reimer, Caladonia, winner of the only other feature race in the month of April at Lake Geneva, moved up to take 2nd at the end after starting 14th. Whitey Harris, Lake Villa, who set fast time with a 16.94 second run for the quarter mile, finished 6th at the end.

In the late models it was Kurt Peterson, Crystal Lake the winner of the 25 lap feature after leading all the way. Dave Evans, Mundelein was a close 2nd at the end with Bob Dotter; Chicago, a distant third. Fast time qualifier Ed Hoffman, Niles, had to go to the pits to change a tire after a first start tangle and he was a full lap down when he returned to the track. He finished 8th running behind the winner Peterson.

John Burmester, Burlington and John Braun, Hebron

wound up winners in the Sportsman and Spectator stock car groups. Braun was not only the only double winner of the night for his victory in the heats for spectators too, but also the only feature winner to get back to back win. His came following the April 15 feature win.

The action returns to Saturday nights again this week with Sundays still held for rain dates.

Antioch Wins 3, Drops 2 in baseball

The Sequoits put together timely hitting and good pitching last week, to win three of five games played.

Antioch received solid pitching performances from Jerry Jacob, who won two complete games; Fred Popp and Glen Amundsen who pitched well in defeat.

On April 25th the Sequoits dumped a scrappy Wauconda team 6-2 behind the three hit pitching of Jacob and two hits by Fred Popp.

In the game's third inning Fred Popp reached first on a boot by the shortstop, was advanced to third on a single by Jacob and scored on a sacrifice fly by first baseman Greg Crutchfield. Jeff January's hit scored Jacob and ended the inngs scoring.

The Sequoits tallied a single marker in the fourth when Chapman legged out an error and was driven in on a single by Popp.

The Sequoits closed out their scoring with a three spot in the fifth. Chapman opened with a single and was doubled home by Tim Mieure, who took third on a wild pitch. After Jacob had sent Mieure across on a sacrifice Crutchfield hit a long triple

and scored on a single by January.

On April 26th, Antioch lost a heart breaker to Round Lake 4-3.

Round Lake won the game in the bottom of the seventh by scoring one run, without benefit of a hit.

Standouts for the Sequoits were Mieure who went 2 for 3; Don Mahar who hit his first home run, and pitcher Glen Amundsen who pitched 5 strong innings before bowing to reliever Fred Popp.

Antioch was defeated by Carmel 8-6 on April 27th in a non-conference game played at Carmel.

The pitching for the Sequoits was not quite up to par for the day. Starter Bud Newton and reliever Al Weber issued 8 walks and gave up 8 hits in a losing effort.

On April 28th, Antioch defeated Grant in a near perfect pitcher's duel 1-0. Winning pitcher Fred Popp went the route giving up only 2 hits and striking out nine.

Antioch scored their lone run in the third on a single to center by Brian Zale, an error, and RBI single by Mieure.

The Sequoit defense came up with the big plays when,

they needed it. Despite making three errors they turned in a double play in the fourth to squelch a budding Grant rally.

Antioch pounded lumps on Lake Zurich on April 29th, beating them 12-3.

With the score knotted at 3 all in the bottom of the fourth, the Sequoits erupted for 4 runs to clinch the victory. They padded the lead with 5 more in the fifth and coasted to an easy victory.

In the 13 hit shalacking Tim Mieure went 3 for 3, scoring three runs; Fred Popp had a 2 for 4 afternoon, collecting a double and a triple and 4 RBI's. Third baseman Charlie Chapman went 2 for 2, scoring 3 runs and getting 3 RBI's.

EMMONS rolls past LOTUS

Emmons School launched its defense of two straight Big

Six Conference softball titles with a 19-5 win over Lotus School.

The Raiders fall behind in the bottom half of the first, as three runs came across home. Bob Dubek gave up three consecutive singles and all three runs came home, the last with the aid of an infield out and a throwing error.

In their half of the third, Emmons closed the gap to one run. Jerry Schmidt and Dennis Varney opened with back to back doubles to score one run. Varney was out at the plate, as Glen Thibedeau reached on an error. After a walk, Terry O'Brien singled home the second run.

The Raiders opened their fourth with a booming triple by Ken Cash. Cash romped home on a single by Bob Dubek. Dave Lagerstrom's single put two men on the base path's. Schmidt followed with his second double to chase home the lead run. Lotus couldn't put out the fire as 13 Raiders came to bat and nine runners dented the platter.

Cash's homer, and Ron Cook's 3 for 3 day, highlighted the Emmons attack.

Sequoits Cindermen

Have Good Week

Antioch's varsity track team spent a profitable week on the cinders as they won one meet, finished second in a triangular and placed many men in a non-conference meet.

At the triangular meet in Libertyville on April 24th, the Sequoits fell only 4 points short of a tie with the host school. Even though Libertyville started as many as six men in every event, as compared to only 2 by Antioch, the Sequoits amassed 76 1/2 points.

Individuals gaining first place finishes included Rick Simon in the 100 yard dash, Brad Fortney in the discus (128'4"), Pat Michalak in the high jump (5'10") and Mark Andrews, who sailed 19 feet 5 1/2 inches in the long jump.

In addition to the individuals, the team of Andrews, Ano, Weiss and Thompson won both the 880 yard and mile relays.

Thursday, April 27th was a good day for the Sequoits despite the threatening weather. Antioch ran away from conference opponent Warren by a score of 84 to 43.

The entire team was responsible for the lopsided victory, but once again, certain names kept cropping up in the winners column.

In the short range competition Rick Simon won both the 100 and 220 yard dashes. Gary Weiss added to the point totals by capturing the 440.

Gary Mandehr led the long range "lung men" by taking both the 880 and the mile.

The team of Andrews, Ano, Thompson and O'Neill won both the relay events.

Pat Michalak won both the high hurdles and the high jump in individual competition. Bob Becvar gained a first in the low hurdles and Steve Peterson captured a first in the discus.

In the North Chicago "Warhawk Invitational" held Saturday, the Sequoits accounted wll for themselves. The meet was run on the basis of individual performances. No team scores were kept.

Rick Simon captured a fifth in the 100 yard dash as the only Sequoit to clinch a high finish in the short range

competition.

Pat Michalak had an outstanding day finishing second in three events: the high hurdles, the high jump and low hurdles.

Gary Mandehr was second in the mile and set a new meet record of 1:57.2 in the 880. The time was only one tenth of a second off the school record set in 1971 by Bob Osmond.

In other events Bob Becvar finished fifth in the low hurdles, Tim O'Neill placed fifth in the 880 and Reed Ano finished fourth in the high jump.

Coach Gerry Sandberg said he was "fairly happy with the weeks results. The potential is definitely here for a good season."

Linksmen Battle Weather & Opponents

Antioch's varsity golf team continues to keep plugging away, but a combination of bad weather and an inexperienced team have dealt another week of losses to the struggling Sequoits.

Coach Roy Nelson's men suffered three more match defeats at the hands of St. Joseph's, Lake Zurich and McHenry.

Nelson said he felt his team was improving, but the road was all uphill. He mentioned that some of his team's best drives were lost when the rain swollen fairways made the task of finding the balls an impossibility.
